

WOMAN KILLED BY CAR

73,000 ARE REGISTERED IN COUNTY

Women Add Greatly to Record Number of Voters for Coming Elections

Total of Men, 43,244; Women, 29,714; According to Registrar

Alameda county faces the coming presidential primary with the largest registration in its history. By noon today 72,958 voters had qualified for participation in the nomination of candidates and approximately 10,000 more are expected to register by August 3. The office of the registrar, clerk in the hall of records will be open every evening next week from 7 to 9 o'clock to permit laboring men and women to place their names on the great register in case they have not already done so.

According to figures compiled by Registrar A. B. Blow, 43,244 men and 29,714 women have already registered. Two years ago the full registration was represented by about the same number of male voters, while the female element represents a clear gain over previous registrations. Blow again calls attention to the fact that it is absolutely necessary for people to re-register this year in order to participate in the coming primary. Registrations of last year will not be recognized.

At the recall election, however, last year's registrations will be recognized. Approximately 60,000 voters are qualified to participate in the recall election on August 5 and the outlook is for the heaviest vote ever polled in a special election.

At the primary election only three parties are recognized this year: Republican, Democratic, and Socialist. After the primary it is expected that many independents will seek places on the November ballot by petitions. In the event that the California legislature nominates electors favorable to the candidacy of Theodore Roosevelt it is expected that Taft electors will be placed upon the ballot by petition representing three per cent of the vote cast at the last general election.

The new law provides that the November ballot shall have no party column. The names of President Taft, Roosevelt or Wilson will not appear upon the ballot. Opposite the name of each candidate may appear his party affiliation, either Republican, Democratic, Socialist, Prohibition, or Independent.

KNOWLAND WINS VICTORY AT COMMITTEE MEETING

Obtains Agreement to Provide Oakland Postoffice With Additional Land

WASHINGTON, July 26.—Congressman Joseph R. Knowland, today obtained from the Committee on Public Lands and Buildings, an agreement looking to the requirement of additional land for the Oakland, California, postoffice. The action of the committee was a decided victory for Knowland who, in pressing his claim, faced the opposition of an economy-minded committee, besieged on all sides by clamoring representatives.

LIE PASSED IN HEATED DEBATE

J. H. Mee and Emeryville Trustee Furnish Some Excitement

\$182,500 Reduction in Assessment Sought; \$38,500 Is Granted

The California Jockey Club and the Mee estate went down to defeat this morning in a spectacular battle of denunciations before the Board of Equalization. John Hubert Mee, representing the family which owns the Emeryville race track and Shell Mound Park, spoke for over an hour in behalf of a plea that the assessment be reduced from \$285,000 to \$200,000. His speech bristled with references of "distorted imaginations," "vengeance" and "rank injustice," and he leveled a broadside of verbal artillery against Judge J. C. Colburn, "boss of Emeryville," whom he accused of doing politics and seeking to wreak vengeance for a fabled grievance against the race track interests.

Opposed to Attorney Mee were Colburn, J. W. Phillips of the Alameda County Association and the forces of the county assessor's office. The arguments lasted for two hours and at times became so heated that Chairman John Mullins had to call upon the debaters to refrain from hostilities.

Upon the recommendation of Deputy County Assessor John Hedeman, the assessment was reduced \$38,500, represented by a cancellation of the assessment of \$38,500.

U. S. Battleships to Have Hydroplanes

Manufacturers Are to Be Asked Whether They Will Submit Designs

WASHINGTON, July 26.—Each battleship of the navy will be equipped with a speedy hydroplane within the next year, it is latest plans of the navy department materialize. Rear Admiral Philip Andrews, acting secretary, has called upon manufacturers to submit designs to meet naval requirements.

TELLS WIFE OF SUICIDE PLAN

Charles H. Eickmeier Leaves Home After Making Death Threat

Said to Have Taken Money From the Bank Before Disappearing

MELROSE, July 26.—Saying to his wife that he would kill himself, Charles Eickmeier, living at 37 Hopkins street, left his home early yesterday morning and has not been seen since. His wife, Mrs. Marie Eickmeier, fearing for her husband's welfare, has reported the matter to the Oakland and San Francisco police. The men left a note saying:

"Now that I am going, you can marry again and be happy. Take care of the children and before you make a move, be careful. You will never see me again."

The man leaves a two-weeks old baby and an 18-months-old girl in the care of his wife.

Eickmeier worked for an automobile company in San Francisco. According to Mrs. Eickmeier his leaving home was caused by her sending a suit to the dyers without his permission.

It is reported that the man went to the savings bank and drew out what savings he had.

Although search was made this morning, no trace has been found by the police of the body of Charles H. Eickmeier, who sent two farewell letters to the police and to THE OAKLAND TRIBUNE yesterday. After learning that Eickmeier had taken money from a bank before disappearing, the police decided not to take his suicide threat so seriously.

MAYOR POINTS TO PROGRESS UNDER HIS ADMINISTRATION

BIG STRIDES MADE BY CITY

Colored Voters Rally to the Standard of Oakland Officials

Women Active in Opposing Attempt at Recall by I. W. W. Forces

At an anti-recall meeting held last evening at Zion church, on Campbell street, under the auspices of the colored American center of the California Civic League, Mayor Frank K. Mott and Commissioners Turner and Eacuss spoke on the dangers that would result should the recall carry.

The meeting was well attended, many in the audience being women voters, who paid the closest attention as they listened to the speakers describing the political situation here at the present time. George Ingraham presided.

Mayor Mott was the first speaker. His speech followed:

"At the present time the city engineer is preparing plans for the new trestle and apron wharf to be erected at the foot of the Fourteenth street extension. This improvement will cost \$28,000 and will be borne half by the city and half by the Key Route Company or the San Francisco and Oakland Terminal Railways Company as it is now known.

"This work, which is expected to be completed within four months of the letting of the contract, marks another big step in our harbor development and one which West Oakland has been looking forward to. Fourteenth street is to be improved from its present terminus at the Southern Pacific right of way to the low tide line and at this latter point the pier traffic will commence.

"This trade will run out to the new bulkhead line along which the rock quay wall has been built and there will be a big apron wharf, 300 by 65 feet, for receiving of freight from the river boats. The street will contain an eighteen-foot roadway and a six-foot sidewalk for its entire length and the roadway will connect with another one along the top of the quay wall which will connect with the Seventh street extension.

COURT REFUSES TO RELEASE THAW

The Slayer of Stanford White Is Branded Dangerous

WHITE PLAINS, New York, July 26.—Harry K. Thaw, in the eyes of the law, still is insane and must remain in the asylum where he was placed on February 1, 1908, after he had killed Stanford White. Justice Keogh of the Supreme Court denied Thaw's application for freedom today. The court took the ground that Thaw's release would be dangerous to public safety.

The recent hearing has again drawn attention to the enormous expense connected with the Thaw case. New York state, for instance, has spent over \$350,000 to place Stanford White's slayer in Matteawan and to keep him there. This makes the

Seek to Cut \$3,000,000 Tax Assessment to \$20

The Spring Valley Water Company, through Attorney A. C. Green of San Mateo, applied to the Board of Equalization this morning for the reduction of assessments on their riparian rights in this county from \$2,000,000 to \$20. Green argued that this county was the only one in the state which assessed the company for riparian rights over and above the tax upon the land itself. He extended the case to the board and already paid in full assessments on the property and the company in this case is and shall not pay a cent of tax on its riparian rights.

MRS. DREYFUS DIES FROM BLOW

Mother of Prominent Contractors Meets Tragic End in San Francisco

Victim of Accident Expires While on Way to Hospital in an Auto

SAN FRANCISCO, July 26.—Mrs. Leah Dreyfus, a wealthy widow of 4463 Jackson street and mother of Emil and Walter Dreyfus of the contracting firm of Dreyfus Brothers of 389 Montgomery street, was almost instantly killed by a Sutter street car at the Powell street crossing at 12:30 o'clock this afternoon.

Mrs. Dreyfus was about to cross at the corner and became confused by approaching cars. Before she could get out of the way she was knocked down, being thrown heavily to the pavement.

Dr. E. S. Howard was passing in his automobile and rushed her to the Central Emergency Hospital. She was dead on arrival.

Mrs. Dreyfus was the widow of D. Dreyfus, a wealthy wine merchant of this city, who died about fifteen years ago. Two brothers are Louis and Jacob B. Weil.

## TEXT BOOK FIGHT GOES MERRILY ON

President Ware of the Chico Normal Files Protest at Sacramento.

SACRAMENTO, July 26.—Declaring that the proposed new common school language text books adopted by the State Board of Education are "unfair, inferior and unworthy product educationally," President Allison Ware of Chico Normal has filed a protest with the State Board of Education. The protest is a formal document, signed by the board of trustees of Chico Normal, and is being filed with the State Board of Education. The protest is a formal document, signed by the board of trustees of Chico Normal, and is being filed with the State Board of Education. The protest is a formal document, signed by the board of trustees of Chico Normal, and is being filed with the State Board of Education.

On the ground that this method of securing individual signatures to the contract was employed because of the difference of opinion as to the desirability of the books among members of the textbook committee was so pronounced that it was deemed inadvisable to try to make the contract in the long-established way.

HYATT WAS WILLING. As one of those who voted to adopt the books under the final revision offered, State Superintendent Hyatt was willing to sign the contract, but President Frederick Burk of the San Francisco Normal School, also a member of the committee who fought the adoption, refused.

The proposed change of language books has been a volcanic question in the State Board of Education for two years and the adoption of the revised Silver Burdett books was not brought about until June 4, when a majority was secured by voting to President McLane of the Fresno Normal School to hurry to Sacramento to complete the majority.

The adoption was made by the votes of President Bailey, San Jose Normal School; President Mills, Los Angeles Normal; Superintendent Hyatt; President McLane, Fresno Normal; President Wheeler, University of California; and Professor Lange, University of California.

Votes against the books were cast by President Ware, Chico Normal School; President Burk, San Francisco Normal; President Hardy, San Diego Normal; and Governor Johnson.

SVS ACTION IS IRREGULAR. In his protest against sanctioning the "round robin" contract with the Silver Burdett Company, President Ware says in part:

"The action of the state board is not founded upon recommendations and books presented by the State Text Book Committee. The State Text Book Committee under the law by which it exists is required to initiate all text book action. It has not recommended the adoption of the Silver Burdett books and in that respect the recent action of the board is irregular."

"If these books be issued the cost of purchasing new language books by all the school children of the state will approximately double the amount of money spent on language texts during the next year."

## BOARD TO CONFER ON TAX DECISION

Petition for Rehearing of the Corporation Toll Ruling Now Pending.

SACRAMENTO, July 26.—The members of the state board of equalization, State Controller A. B. Nye, the secretary of state and Attorney General U. S. Webb, will meet in the latter's offices at San Francisco next Monday morning to confer upon the recent decision of the California supreme court declaring the corporation license tax and fee bill unconstitutional.

A petition for rehearing of the case is pending before the supreme court it is considered unlikely that it will be granted. Steps may be taken by the conference to decide what action the equalizers may make to secure additional revenue to make up the loss of approximately \$500,000 that will be entailed in the working out of the supreme court's decision. Under this no corporation license tax nor filing fee may be charged against foreign or domestic corporations doing an interstate business.

The need for further conference with the state's law department on the matter was decided upon at a meeting of the board of equalization held here yesterday.

## ACTOR GENTRY FOUND DEAD IN N. Y. HOTEL

NEW YORK, July 26.—James R. Gentry, the actor, who was released from the Pennsylvania State prison two years ago, after having served fifteen years for the murder of his fiancée, Maudie York, was found dead, yesterday, in his bare little room in Volk's hotel here.

Gentry had lately lived a dismal life. His long imprisonment and years of headlong racing had left him in a state of mind, so that he could no longer earn his living as an actor. He had lived on the charity supplied regularly by George Cohen and supplemented irregularly by other old friends. Cohen will take charge of his funeral.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at the time severe trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by Osgood Bros. Drug Co.

## SAYS DISARMAMENT IS NOT POPULAR

Dr. Eliot Declares China and Japan Do Not Favor Peace Move.

HONOLULU, July 26.—Dr. C. E. Eliot, president emeritus of Harvard, who is returning from a tour of the Orient in connection with the world peace movement, declared in an address here last night that neither China nor Japan favored disarmament. Such a course would be impossible for Japan, he said, because of her insular position, which rendered it necessary for her to be able to protect her routes of ocean commerce.

Dr. Eliot characterized the Japanese war scares of recent years as absurd. Japan, he said, was not in the least inclined to be warlike and would only fight as a last possible resort or if attacked.

The only hope of world-wide disarmament, Dr. Eliot declared, lies in the American policy of exemption of private property from attack at sea.

Dr. Eliot is carrying to the United States a memorial signed by many leading Chinese statesmen asking that an American library be established at Peking. It is urged that such a step would lead to a better understanding of American ideas by the people of China.

The meeting at which Dr. Eliot spoke was presided over by Governor Frear and many Japanese and Chinese were present. Dr. Eliot's remarks were confined entirely to the world peace movement.

During his brief stay here Dr. Eliot has been entertained by Harvard graduates. He expects to sail for San Francisco within a few days.

## RUSH WORK ON NEW SUB-TREASURY PLANS

WASHINGTON, July 26.—Plans for the new San Francisco sub-treasury are being rushed completed at the treasury department. Some delay has been caused by Architect Dyer of Cleveland, O., who was awarded the contract for the plans, making the first set of drawings on too large a scale. This has been corrected, and Assistant Secretary of the Treasury Allen today told Representative Kahn, who had called to hurry the matter, that bids for the structure would be asked for probably in September, and it was planned to start actual work on the building before October 1, in order that the structure might be completed before the opening of the Panama-Pacific exposition.

## WIFE IS 'WHITE HOPE,' SAYS SPOUSE

Beat Children, Killed Cat and Knocked His Teeth Out, Complains Husband.

According to her husband's divorce complaint, Mary Nordstrom, wife of E. W. Nordstrom, was the original inspiration for killing's verses on "the female of the species." Nordstrom said his wife hurled their seven-month-old baby violently to the floor and the infant died later of spinal meningitis. He also accused her of beating another of their children, of killing a cat, knocking out his front teeth with an ironing board, and bombing his home with rocks.

Mattie J. Burris asked for a divorce from William S. Burris, because Burris, she said, cut a hole in the floor and crawled under the house at night to spy on her. She said her husband was insanely jealous without reason.

## SAN FRANCISCO IS ATTACKED BY CANINE

SAN FRANCISCO, July 26.—While on his way home, early this morning, Nicholas Lazarus, of 501 Second avenue, was attacked by a dog, which bit him in the right side. He was taken to the Park hospital and after treatment was sent to the home of his mother.

Due to the fact that there have been two deaths within a week from rabies, the authorities are exercising extraordinary precaution, and all dog-bite cases will be carefully watched.

# ASSISTANT CORNER F. A. PEDLAR DIES

Mint Employee Passes Away  
After Illness of Several  
Months.

SAN FRANCISCO, July 26.—Frank A. Pedlar, assistant corner of the Mint and a member of the local Federal civil service commission, and pioneer of California, died yesterday at the home of his son, Lyle H. Pedlar, 440 Arguello boulevard, after an illness extending over six months. Associated with the Mint for twenty-three years, Pedlar had an extensive acquaintance among Federal officials in San Francisco and other parts of the United States. He was frequently employed as member of the board of examiners for the annual adjustment of the affairs of the Mints in Denver and Philadelphia. Pedlar was a native of Wisconsin. He was born April 1, 1850, and crossed the plains with his parents when two years old. Prior to becoming connected with the Federal service, he was professor of English at Hesperian college Woodland. He was also president of the board of education of Yolo county, and was Postmaster at Woodland for six years. During his long residence in San Francisco, Pedlar was active in politics in the Thirty-fifth district. He is survived by a widow, Mrs. Glendora Pedlar, and seven children: Mrs. H. C. Morrison of Kentucky, Mrs. F. W. Mosher of San Francisco, Mrs. Rastus G. Galt of Auburn, Mrs. Herbert E. Marchant of San Francisco, Miss Hazel Pedlar, Marion Earl Pedlar and Lyle H. Pedlar.

The funeral will take place tomorrow at 1:30 o'clock from the home of Lyle H. Pedlar, 440 Arguello boulevard. The Rev. E. R. Willis will officiate.

Shortly after the San Francisco fire Pedlar removed with his family to Oakland, residing here until a few weeks before his death. He was a member of the Eighth Avenue Methodist church. Miss Hazel Pedlar, a daughter, is a well known newspaper writer of San Francisco.

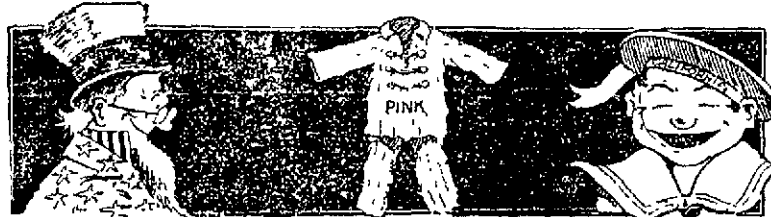

# ROCKEFELLER'S AGENT BUYS 27,000 ACRES

CHARLOTTE, N. C., July 26.—Frederick Gates, chairman of the general education board and adviser of John D. Rockefeller in philanthropic and other undertakings, and personal representative of the oil magnate in many business enterprises, has purchased 27,000 acres of land in Richmond and Scotland counties, this state, at a figure approximating a quarter of a million dollars, and will turn farmer. A large area of the tract will be cleared and planted to peaches, pears and grapes and other fruits and berries, while much of it will be cultivated in cotton, corn and other staple crops. A part of the tract will be set aside and developed as a colonization project. The owner of the land paid \$1 an acre for it ten years ago.

# Peevish Children Suffer With Worms

Don't be angry with your child because he or she is continually irritable. In nine cases out of one hundred cases you will find that the trouble is worms. Among the common symptoms of the presence of round worms are nervousness—which often leads to epileptiform attacks—dizziness, vertigo, capricious appetite, restless sleep, itching of the eyes and nose, nausea and often hysteria. Round worms are several inches in length and infect the stomach. Occasionally several hundred are found in a single person. These worms are smaller, often not longer than a quarter of an inch. The symptoms denoting their presence are about the same, but in this case the child has no appetite. Jayne's Tonic Vermifuge is unsurpassed in removing worms. Not only will it destroy them, but its tonic effects will restore the stomach to healthy activity. As Jayne's Tonic Vermifuge seldom purges, the indications of its beneficial effects will be the improved condition of the parents having praised this medicine for more than forty years insist upon Jayne's Tonic Vermifuge, and accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

# NIGHTY-NIGHT, CUNNING SAILOR BOY PAJAMAS! PINK ONES! O, CARNATIONS!

(Uncle Sam has ordered pink pajamas for the American marine.—News Item.)

(By GERALD P. BEAUMONT.)

I.  
Who was it said a sailor's life was hard?  
He's a rummy, he's a dummy, he's a loon;  
We're the acme of elation, not a joy is ever barred,  
As you'll gather when you listen to our tune.  
Time was when it really didn't matter much  
What we wore, as long as we could stand and fight,  
But now we part our hair and are careful what we wear,  
And we sleep in pink pajamas all the night—that's right,  
And we sleep in pink pajamas all the night.

CHORUS.

O, we're all a lot of warriors in Uncle Sam's Navy-ee;  
Our pink pajamas prove that we can fight!  
We dress in white by day, and then in negligee  
We seek repose in bloomer clothes by night.  
Thus we're always fit to tussle with the best;  
And when the battle's over, with a prayer  
We can seek our peaceful rest in a dainty hammock nest,  
And twine some pink carnations in our hair.

II.  
Concerning days of old, we're strictly mum;  
There was much that never should have been endured;  
But since we've conquered Rina, now, all we chew is gum,  
And we're perfumed and our hands are manicured.  
"Tiffin" is the most exciting function that we know,  
For we're always entertaining with a zest;  
But if you'd like to know, the navy's proudest show,  
We think our pink pajamas are the best quite best!  
Yes, we think our pink pajamas are the best!

CHORUS.

O, we're all a lot, etc.

# REGION ASLEEP IN DEEP AGES AGO

Professor Declares the Ocean  
Covered Mountains of  
Southern California.

LOS ANGELES, July 26.—The unearthing of petrified abalone and other crustacean by excavators who are at work on the site of one of the proposed skyscrapers in the heart of the city, proved the theory that this section of the country was buried 100,000 years ago deep beneath the sea.

According to a statement by Dr. John H. Flower, paleontologist, who is assisting in reconstructing the fossil of the giant sloth here, the sea even extended much farther inland and he added that he had on several occasions dug up similar shells on the top of Mount Pine.

The unusual part of the discovery, he stated, was the depth at which the shells were found, they being imbedded twenty-six feet beneath the surface of the soil.

# UNCHARTED ROCK CAUSES DOWNFALL

Capt. A. J. Dunleavy Loses His  
Bearings in Dark and  
Is Hurt.

SAN FRANCISCO, July 26.—Captain A. J. Dunleavy, former commander of the Harbor police station, who was retired nearly five years ago, was one of the few men in the city who knew every step of ground along the waterfront. Having charge of the policing of this important district for so long, Captain Dunleavy was wont to say that he could find his way about in the dark and could never be shipwrecked "on his own coast."

That, however, was before his retirement, and before the streets began to be torn up by the board of public works and the corporations. Last night, Captain Dunleavy, traveling what used to be familiar paths, ran against an uncharted rock and went down.

He fell at Stewart and Folsom streets, receiving painful injuries. One of his old patrolmen had him conveyed to the Harbor hospital, where severe cuts to the cheek, lips and chin were dressed. He was not completely wrecked, however, and insisted upon going alone to his home, 1639 Hayes street.

# ASHES OF WRONG MAN HONORED?

Relatives of Lieut. West Bury  
One Body; Another  
Arrives.

CONCORD, N. H., July 26.—Relatives in this city of the late Lieutenant S. B. West, Tenth Infantry, U. S. A., are in a quandary over a news dispatch from San Francisco saying the body of Lieutenant West had arrived there on the transport Sheridan from Alaska.

It was just a year ago that the last rites were held in the town of Concord over an urn believed to contain the soldier's ashes. Unusual interest attached to the ceremony as Lieutenant West died a hero in the performance of his duty, having been frozen to death while on the trail from Nome in February, 1911.

To determine whether a mistake has been made in connection with the body just reported from San Francisco or whether the ashes buried as those of Lieutenant West are those of another, the war department at Washington has been asked to investigate.

# WAR WITH ROCKEFELLER IS CARRIED TO GRAVE

NEWCASTLE, Pa., July 26.—Providing that they "do not collect or accept money from John D. Rockefeller," against whose corporation influences he had battled for a lifetime as an independent oil producer, the will of Thomas W. Phillips, banker, philanthropist and the largest independent oil producer of the United States, bequeaths \$64,000 to educational and religious institutions. The will, which was of an estate valued at \$2,000,000, Phillips had a most interesting career. Twenty-five or thirty years ago, when fortunes spouted out of the ground in a night around Pithole City and Titusville, Phillips' brothers were among the most famous of the oil kings.

# McNEAR, JR., CABLES ARRIVAL IN PERU

PETALUMA, July 26.—George P. McNear, Jr., has received a cablegram from his son, George P. McNear Jr., announcing his safe arrival at Lima, Peru. Young McNear left here some time ago to attend a convention of delegates in South America from all the largest colleges and universities of America, he representing the University of California. He is traveling with a party of college friends and took steamer from

# CAPTAIN KIDDER WILL RESIGN.

SAN JOSE, July 26.—George S. Kidder, for whom the office of captain of detectives was created after his dismissal as chief of police, following a controversy with Mayor Monahan over the appointment of Frank Rose announced yesterday that he would resign on August 1. Kidder's appointment as captain of detectives has been the source of much bitterness in police circles.

# COURT DENIES PLEA FOR BETTER SERVICE

SAN FRANCISCO, July 26.—Superior Judge Monroe has denied a writ of mandate asked for against the Spring Valley Water Company to compel the installation of mains and adequate service in the Richmond district. The action was brought by August L. Larkins and other residents for the installation of an adequate supply of water along Geary street between Fifteenth and Nineteenth avenues. The court held that a suit by the city attorney was the proper remedy.

# PASSENGER ANNAPOLES TESTS

WASHINGTON, July 24.—Thomas Ross, Consul of Great Britain named Representative Baker, for midshipman at the United States naval academy at Annapolis, has passed the mental and physical examinations and has been sworn in. Consul made a mental average of 2.45 out of a possible 4.00. William Price Oliver, Consul at Annapolis, the afternoon, made

## Resolutions of Protest Are Drawn Up by G. A. R. Committees

## NEW SHOW WILL COME TO ORPHEUM

"Madame Butterfly" in Last Days at Twelfth Street Vaudeville House.

It is a matter of regret among theatergoers that only two more days remain in which to have a peek at the beautiful and the sorrow of "Madame Butterfly," the pitiful story, as told by David Belasco's own company at the Oakland Orpheum. No more powerful and effective presentation of a great play exists than this production at the Oakland Orpheum. Credits have witnessed it since the opening performance, last Sunday. Thousands have wished its enagement could be prolonged, but this is impossible. "Madame Butterfly" leaves Saturday night.

All but one of the features of the current bill at the Orpheum will give way next Sunday, to a new show. The bill for Sunday is described as brilliantly clever, frothy summer entertainment. Nothing serious will be discovered on the bill next Sunday. Laughter is to reign. That will please the majority of playgoers. Fun is ever in demand.

May Sully will be queen of the fun-makers next Sunday. She has a merry rollicking play, "The Battle Cry of Freedom." It is a Reno divorce comedy. A husband finds himself in a Reno hotel with two wives on his hands. Their rooms adjoin. The complications are many. The fun is fast and very funny. It all sounds promising—for mirth and jollity.

Miss Tully is known to be a splendid comedienne. Her sketch is by Doorman Bulger, the famous baseball writer of New York, who originated "Sweet Milligan." Miss Tully collaborated in writing the play. They have raved over it in San Francisco. It should be a tremendous hit at Oakland.

All the other acts are light and decidedly full of merry quips and jests, with pretty girls, dancing and songs and clever acrobatic stunts for sauce.

Steln, Hume and Thomas are a trio of lads with fine singing voices.

Paul and Marion Stone will indulge in bits of light musical comedy.

The Dore brothers, handsome athletes, call their act "Athletic Accuracy." That sounds good.

The O'Neers sisters, three of them, will sport themselves on a slender steel thread.

Bert Terrell, a Dutch character vocalist, will warble in melodious fashion.

There will be other features, all apparently of the highest standard.

## PENNSYLVANIA SLOWLY RECOVERS FROM FLOOD

PITTSBURGH, July 26.—Western Pennsylvania is recovering slowly from the effects of Wednesday's flood which visited the coke regions. It will be more than a month before any effective effort can be made to reach the bodies of the fifteen men drowned in Superba mine near Uniontown for it will take that time to pump the mine dry, according to an estimate by General Foreman Buttermore today.

## CRUSHED TO DEATH IN ELEVATOR SHAFT

SAN FRANCISCO, July 26.—While repairing the elevator of the Hotel Jefferson, Gough and Turk streets, this afternoon, H. B. Winters was almost instantly killed. Winters failed to notice that he was leaning over the track when the balance weight hung from the heavy iron, descending, struck him on the head and crushed him to the floor. The fire department was summoned to extricate him but he was already dead when rescued. He was about 25 years old.

## FOR A GOOD APPETITE, HEALTHY COLOR, STRENGTH, ENERGY AND HEALTH

If you are nervous, always tired out and run down, impure blood is probably the cause. If you are pale, sleepless, irritable, have no ambition, suffer from headache and backache, you may be certain that the blood is at fault. Impure blood does more to hasten disease, unfit you for work and shorten life than anything else.

The man or woman whose blood is filled with impurities should remember that good pure blood means health. Through the aid of Dr. Williams' Pink Pills for Pale People health is within your reach. They go straight to the blood, cleansing it of all impurities and giving it the elements which it lacks. For a good appetite, healthy color, health and strength, they have no equal. What these pills will do when given a thorough trial is shown in the case of Mrs. John Clark, whose address is Box 38, R. F. D. No. 1, Medicine Lodge, Kansas. She says: "Through overwork I suffered from a general breakdown for about a year. I was very nervous all of the time and had no strength at all. I had severe headaches which nearly drove me crazy. They often lasted for two or three days. I was subject to dizzy spells and a blurring

## NIGHT SCHOOL IS LOSER IN DECISION

The Supreme Court Renders Opinion Reversing Decree of District Tribunal.

SAN FRANCISCO, July 26.—The Supreme Court, sitting on banc this morning, denied a writ of mandamus to the city and county of San Francisco directed against Superintendent of Public Instruction Edward Hyatt. The decision affects the entire state and is of some importance in connection with the disbursement of school funds.

The supreme tribunal reverses the District Court of Appeals and declares that Superintendent Hyatt is justified in refusing to allow funds for the support of the night schools on the same basis as the day schools, which is the question involved. The petition was filed for the purpose of testing the validity of a rule made by the State Board of Education providing a minimum of four hours at the attendance necessary in the elementary schools of this state to constitute a school day's work. In the matter of the apportionment of the school funds to the different districts.

In San Francisco the night school sessions average two hours, whereas the day schools are open between four and five hours. The night schools, therefore, should be entitled to only half of the apportionment given the day schools. The city claims that it is entitled to \$16,769, which has been refused payment by Superintendent Hyatt. The court opposed the validity of the rule of four hours a day and denies the writ of mandamus asked for by the city to compel Superintendent Hyatt to pay the \$16,769. The District Court of Appeals had previously granted the writ and today's decision followed the application for a rehearing made by the attorney general.

The court's opinion is to the effect that it would be discrimination against country districts to allow the night sessions to be rated as high as the day sessions. It is stated that night schools are confined almost entirely to the larger cities.

## Warrants Issued for Detroit Councilmen

DETROIT, July 26.—Warrants were issued this afternoon for the arrest of seven members of the Common Council of Detroit charged with accepting bribes for their votes and influence in passing a measure affecting city property recently transferred to the city. It is alleged that \$37,000 passed in bribes.

## REFUSES TO PAY FARE; ANSWERS IN COURT

George Rogers, 1120 Broadway, San Francisco, who was arrested last night on a Key Route train following an altercation with R. A. Smith, a conductor, appeared before Judge George S. Rogers this morning and had the three cases of battery, disturbing the peace and attempting to evade paying railroad fare, put over till tomorrow morning. The matter was continued, that formal complaints might be filed.

Rogers is alleged to have refused to pay his fare last evening, and when Conductor Smith insisted he was said to have attacked the train man. Rogers explained the affair to Train Inspector E. C. Dodge, who placed Rogers under arrest. Both Rogers and Smith were treated at the Receiving Hospital for bruises received in the fray.

## CONDITION OF MIKADO WORSE

Crowds Throng the Entrance to Palace Grounds in Tokio.

TOKYO, Japan, July 26.—A remarkable hush prevailed over this city this morning. Even during the business hours of the day almost the only sounds heard were the occasional cry of the newspaper boy selling extras. Outside the palace in the extreme heat of midday the patient crowd waited with bowed heads for news of his majesty's condition.

Prince Arimoto Yamagata, president of the privy council; Marquis Ichimochi Saonji, the premier, and Count Chikaki Watanabe, minister of the imperial household, held a conference today during which they made preparations for eventualities. The crown prince, after a long stay in the imperial sick room, returned to his residence at a quarter past one this afternoon.

## CONDITION SERIOUS.

The condition of Emperor Mutsuhito is regarded today by those in immediate attendance as extremely grave. The physicians have issued only one bulletin up to 2 o'clock this afternoon and that announced no change, which is regarded as ominous.

The nature of his majesty's malady, which is indicated as acute nephritis, complicated by uramic poisoning, and which began to cause serious alarm about July 19, has prevented the imperial court taking sufficient nourishment and he has continually become weaker.

The bulletins have hitherto maintained a hopeful tone and it was thought his majesty would rally, but instead he appears to have suffered a relapse and it is feared his heart cannot stand the strain.

## GROWS WORSE.

The suspense in the capital has been intense since the regular bulletin issued at noon showed that the condition of the Japanese emperor had become worse. A bulletin issued at 8 o'clock in the evening contained merely the words "no change," and this only served to increase the feeling of anxiety. It is plainly evident that his majesty's condition is extremely grave.

The great park outside the entrances to the palace grounds presented a remarkable scene today. Thousands of people are gathered under the dwarf pine trees, many praying and all showing sorrowful anxiety. Among the upper branches of the magnificent cedars surrounding the palace high above the outer park paper lanterns, showing a recognition of the homage of the multitude occasionally swinging as if showing that the vital aspect of the emperor's recovery is a message of hope to the people.

## FORMER PREMIER TO RETURN.

ST. PETERSBURG, July 26.—The aggravation of the condition of health of the emperor of Japan has decided Prince Taro Katsura, former premier of Japan, to return to Japan by way of Moscow. He intends to leave St. Petersburg Sunday.

## SPRECKELS' DEAL DISPLEASED 'KING'

SAN FRANCISCO, July 26.—In reply to questions by Attorney Peter B. Dunne for the Spreckels company in the government hearing this morning, William H. Hannam said Henry O. Havemeyer knew nothing of the deal by which the California-Hawaiian Company was paid \$200,000 a year for closing its Crockett plant until after the agreement and was greatly displeased with it.

Dunne questioned Hannam at length in attempting to bring out the facts that Havemeyer had not interfered in any way in the affairs of the Western and Spreckels companies by which Hannam was employed. Hannam amplified his replies in the face of constant interruptions by Attorney Knapp for the government, and touched on general conditions in the sugar trade in competition between refineries in various sections of the country.

The Missouri river territory, with Kansas City and Omaha as distributing points, was characterized by Hannam as the "dumping ground for the surplus of western sugar."

Hannam said that at no time after coming to the Pacific coast in 1890 was he in the employ of Havemeyer. On direct examination the witness was somewhat disconcerted by the introduction as evidence of a telegram sent by Adolph Spreckels to Havemeyer on December 2, 1902. The message read:

"Object to procuring Hawaiian sugar. If America will market on Missouri river all California sugars but our own, will enter into a long-term contract."

Hannam had testified that to the best of his knowledge Havemeyer was not aware of the deal whereby the plant of the California Hawaiian Sugar company at Crockett had been leased and kept idle.

## SENATE INSISTS ON INCLUDING WARSHIPS

WASHINGTON, July 26.—The Senate agreed today to part of the conference report naval bill but insisted upon its amendments for two battleships and eight submarines torpedo boats. These provisions were sent back to further conference. Senator Perkins, chairman of the Senate naval committee presenting the report, urged the Senate to stand for battleships.

Chairman Bulger of the House committee on foreign affairs has written Chairman Burleson of the House Democratic caucus declaring his intention to vote for a battleship program regardless of the caucus, which declared for no ships this year.

## OPPOSES VACCINATION.

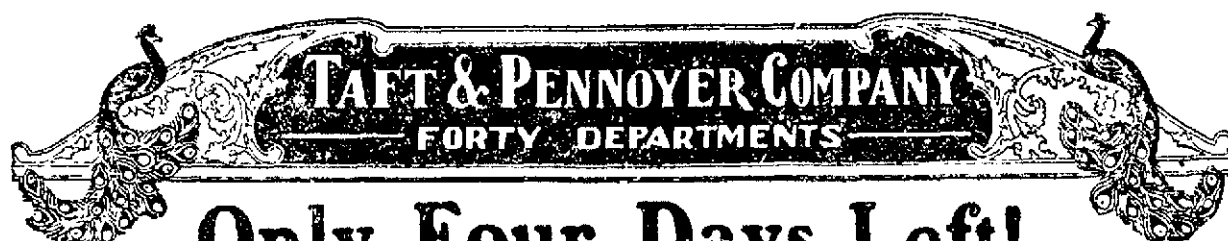

AN ORDINARY seaman attached to the Torba Buena naval training station, refused to be vaccinated as a protection against typhoid and as a result was court-martialed yesterday. He states that his prejudice against vaccination is his reason for refusing orders.

If you are a housewife you cannot possibly keep your kitchen clean and healthy by washing dishes, sweeping and doing housework all day and evening. You had best get into the open air and breathe the fresh air and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed. You should become both healthy and beautiful. ### A Sample Recall Argument.

An alien speaking broken English stood upon a drygoods box in the middle of the street the other evening telling the crowd gathered about him that the right of free speech was denied in this town. "The police of Oakland are worse than the police of Russia, and Mayor Mott is a bigger tyrant than the Czar," he declared. He came here, he said, to defend the right of free speech against a tyrannical law enforced by a police force composed of brutes and grafters.

Then he proceeded to denounce the constitution and laws of the United States, and the Federal judges as corrupt agents of criminal capitalism. He told his hearers that they would never be free till they had overthrown the laws and deposed the infamous judges who enforced them. He said the Stars and Stripes were symbolical of industrial slavery, and that the red flag was the only banner of freedom.

It is not worth while to discuss what this speaker said, but it is worth while to remark that he is a non-resident, born in a foreign country, who has injected himself into the domestic concerns of this city on a false pretense. He declared that he was here because free speech was denied in this city, yet he was holding a meeting in a public street and denouncing with great virulence the police and officials of Oakland, the laws and courts of the country and the institutions under which we live. He was assailing the flag of the nation and the government it represents in terms calculated to provoke a riot.

But the police did not interfere with him. He was not told to stop, was not even interrupted, but was allowed to pour forth his diatribe with perfect freedom. And he was speaking from a box in the center of a public street!

Still he said free speech was suppressed here, and that men dare not speak their minds for fear of being clubbed like dogs. Workingmen dare not assemble peaceably to protest against their wrongs, he declared, because a despot sat in the mayor's chair and ruled like the Czar of Russia.

This man illustrates the spirit and purpose of the recall. His statements show how little justice there is in the complaints made against the city officials. He was violating the law knowingly and using language of intemperance and denunciatory character with intent probably to provoke the police to break up his meeting and stop his harangue. He was abusing the right of free speech with the evident object of being stopped, so that some sort of color might be given to the baseless charges he was making. He wanted to create a disturbance.

It is to be observed that there is one man Roosevelt does not attack. He hurls diatribes in every direction, but he lets Elihu Root severely alone. He calls other men prominent in the Chicago convention robbers and traitors, but not Root. Why? Root was easily the most prominent man on the Taft side at Chicago. His masterly handling of the convention did more than anything else to win victory for Taft, and if anybody is to blame he is. But the Colonel hurls no bombs at Root. Perhaps he is afraid of what Root might say in reply. Root was Secretary of War and Secretary of State under Roosevelt and might be goaded by personal attacks into breaking a few windows if stones were hurled in his direction. He is not a man to turn the other cheek when smitten on one; and he has no peer in America today as a caustic and incisive public speaker. One can easily imagine Teddy does not hanker after a verbal combat with him.

### Progressive Consistency Illustrated.

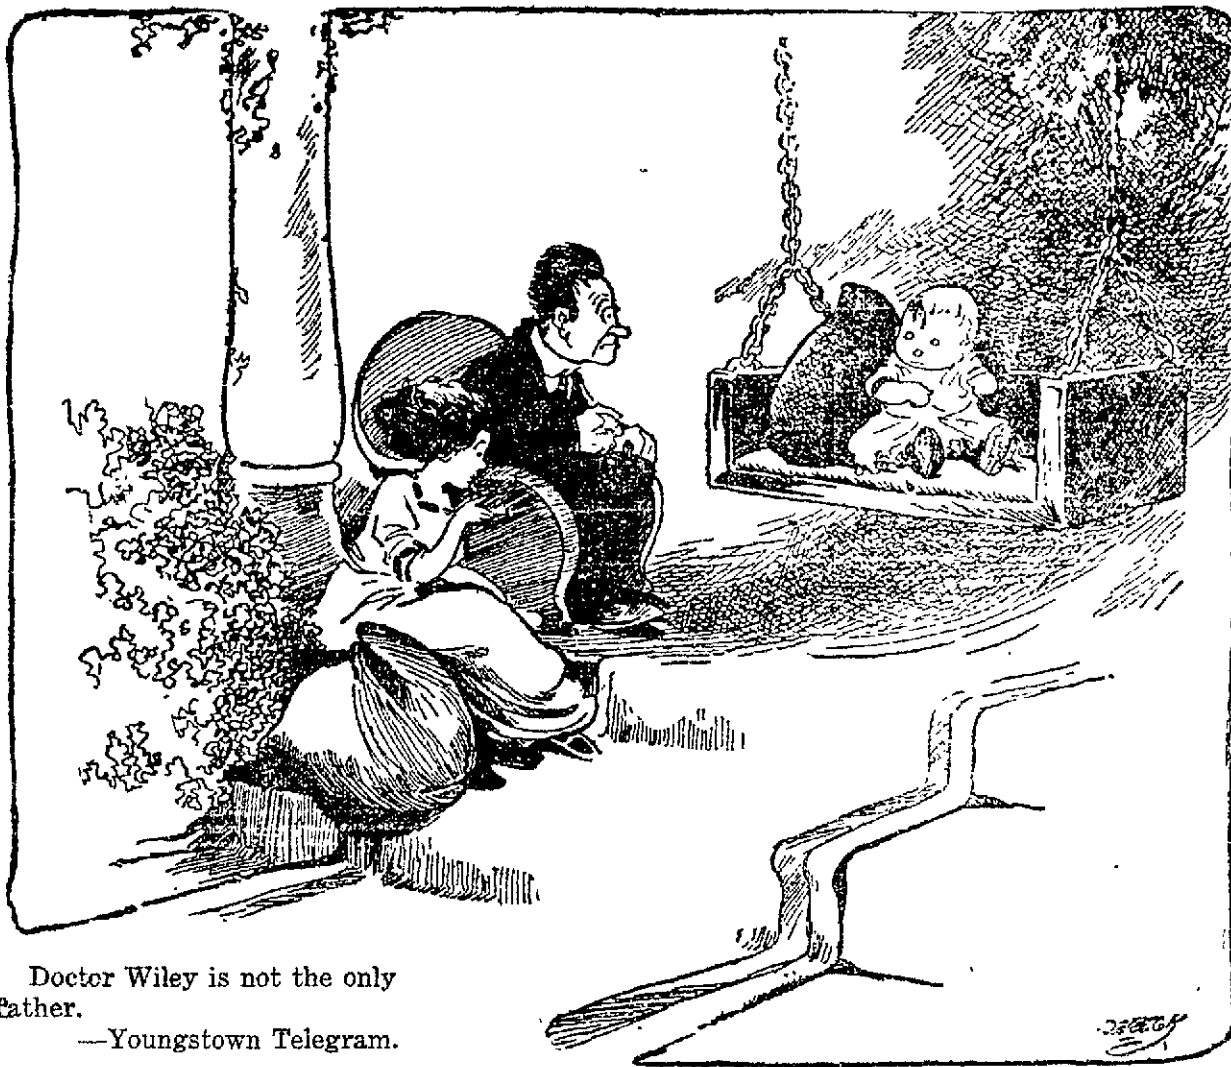

Consistency is a jewel our progressive friends do not find attractive. For example, Senator Poindexter opposes the confirmation of Beverly W. Coiner, whom the President has appointed United States District Attorney for Washington, because he supported the Taft delegates in the recent struggle between the Taft and Roosevelt forces. Mr. Coiner was not holding any public office at that time, and Senator Poindexter is simply trying to punish him for supporting the President in the capacity of a private citizen.

But Senator Poindexter and his fellow progressives are enraged and outraged because the President has removed from office Joseph Q. Thompson, Collector of Internal Revenue for the Alabama district, for offensive partisanship and neglect of duty. While holding office as Taft's appointee he actively espoused the cause of Roosevelt and has taken the lead in the third-party movement in Alabama. He sent a contesting delegation to the Chicago convention, and gave out to the public press statements gravely reflecting on the President, whom he charged with using the Federal patronage at his disposal to further his candidacy. Since the Chicago convention Mr. Thompson has been so busy organizing and directing the third-term party movement that he has not, apparently, had the time to attend to the duties of his office. Hence his removal.

But it makes a difference, indeed, whose ox is gored. Senator Poindexter thinks a man who, as a private citizen, actively supports Taft's candidacy is unfit to hold a position of trust and responsibility under the government, but he pretends to believe that it is wrong to remove an official who neglects the duties of his position to become a political manager for the faction opposed to the President. By his political activity Mr. Thompson abused his official position and violated the civil service regulations and was guilty of offensive partisanship under circumstances that aggravated his offense—he added treachery and ingratitude to neglect of official duty and abuse of official authority.

But he is a martyr in the eyes of Senator Poindexter, while Mr. Coiner is altogether an improper person. It is merely an illustration of Senator Poindexter's conception of the responsibilities of the Senatorial office. He is an example of a small, narrow partisan posing as a reformer and doing petty politics under pretense of fighting abuses. His conduct is that of a ward politician and his principles as pliant as expediency can make them.

### How It Will Affect Workingmen.

Everything that discourages building and constructive enterprise injures workingmen. It likewise injures trade because workingmen cannot meet their bills unless they are employed and getting wages. When constructive operations stop, men are thrown out of employment and their families suffer hardship; trade slackens and money becomes scarce.

Many of the workingmen employed in Oakland own their homes, and it would be a hardship for them to be compelled to go elsewhere for employment. Others have homes partially paid for, and loss of employment would make it difficult for them to meet their engagements and would jeopardize the money they have invested.

Hence the defeat of the recall is of vital concern to laboring men. The success of the recall would cause an immediate cessation of building operations and a contraction of credits. It would discourage all new enterprises, and cause a large number of people to be thrown out of employment. Property values would decline as a consequence and business be depressed. The entire community would suffer, those who work with their hands most of all.

It is best to look the situation squarely in the face and not be deluded by the claptrap of office-seekers and agitators with an ax to grind. Oakland is prosperous now. Do not arrest its prosperity and growth. That is what the recall will do. It will set this city back for several years and cause a business depression that cannot be overcome in a year or two.

The San Bernardino Index says Senator Works will not split the party, meaning the progressive organization. Senator Works will not split any party. He has only denied the right of a band of bosses to demand his resignation because he opposes theft. His opposition to brigandage is not reactionary, but springs from a desire to conserve the principles of truth and honesty.

### The Progressives and the Tariff.

None of the third-party conventions thus far held has denounced the Payne-Aldrich tariff law. When they were merely insurgents, the progressives in Congress and the newspapers which supported them fiercely assailed the Payne-Aldrich law. Language was not strong enough to express their condemnation of that measure.

Since insurgency has progressed into progressiveism and has crystallized around Roosevelt's third-term candidacy, the tariff has ceased to be a topic of discussion. Even Bristow and Poindexter have ceased to take an interest in it. The reverberations that echo from Oyster Bay are silent in regard to the tariff.

The Bull Moose convention in Iowa did not denounce the Payne-Aldrich law, but declared for protection and the election of postmasters by popular vote. Progress indeed! What kind of protection is not stated. Probably of the kind that demands protection for what a man has to sell and free-trade in what he has to buy—the kind that contradicts and defeats itself.

The point is that the progressive brethren are shying from the tariff. They have discovered that it is loaded. The first thing Roosevelt said in derogation of Woodrow Wilson was that he is a free-trader. Presumably his friends, the good trusts, are not in favor of tariff smashing. At any rate his followers have ceased to rail at the Payne-Aldrich law. Tariff revision downward does not appeal to them with the force it did awhile ago.

### RESTORING EDEN

THE NEWEST real estate enterprise of moment is about to be launched in the Delta of the Tigris and Euphrates. The announced purpose is to restore the Garden of Eden to all its pristine glory and beauty. It is this general region that the scientific gentlemen who have mined their geographic knowledge with theologic lore have settled upon as the scene of the original romantic drama which is said to have changed the fortunes of the entire human race. At any rate these same gentlemen and certain worthy experts in the employ of His Majesty George's Imperial Government are of one mind to the effect that the region is very rich in productive soil, and needs but the magic touch of irrigation to restore it to the pristine fruitfulness of which Milton 494 sang. Whereupon the project is afoot to start the works and inaugurate the boom for the modern Eden.

According to that same blind poet the original Eden possessed all the qualities which would furnish the superlatives for the most perfected real estate prospectus ever written. We know very well that Milton had never been on the property; but that is no uncommon condition precedent to word painting of the descriptive variety. We are used to the florid flow of the non-resident description out here on the Coast, for example. We are willing to accept the Miltonic presentation of the beauties of the first Eden as the standard toward which these Twentieth Century boomers must strive. But to drop to the language of the street, those boomers will "have to go some" if they measure up to the original. They will have to expend millions of money and years of effort, but even at that they may be satisfied if they can make a remote approach to the Eden which existed in the mind of Milton.

### QUAY AVERTS MURDER

In the campaign of 1888, when Harrison was elected, some pretty doubtful political maneuvering was going on in Eastern Tennessee. Among the men in the thick of the fight there was Judge Lindsay of Knoxville. National headquarters were in New York, and the commander-in-chief of the Republicans there was Matthew S. Quay. One day an intoxicated politician from South Carolina, who was next to what was going on, walked into Quay's office at headquarters and there met Carson Lake, a newspaper man. Lake thought that if he could get the South Carolinian off into a corner he might talk as freely as his condition seemed to warrant. His surmise proved correct. The fellow gave Lake just enough of an idea how things were being carried on in Tennessee to put him on the track for more facts. He went to Quay and Quay bottled up. He wouldn't say a word. Lake told him that he was going to Tennessee, then, to find out for himself, and walked out of the office. Quay immediately sent a message to Judge Lindsay that Lake was on his way to Tennessee, and gave him enough of a description of the newspaper man so that he could recognize him. He concluded the message by telling Lindsay to see that the calculus failed to work. That night, after the message had been sent, and finally got up with a start when he realized how they were used to doing things in Eastern Tennessee. He knew that a message from him as their political commander-in-chief meant business to those back-woodsmen, and felt that if they did take the message seriously the chances were that Lake's family never would see him again. Quay slept little that night, and got up early the next morning to go to his office and send another message to Lindsay. When he walked into headquarters there was Lake. The newspaper man had meant what he said about going to Tennessee as a bluff. Quay was glad to see him, and gave him a fairly good story. "At least," said the senator, "I rather have to fire words at him here than to have those fellows in Tennessee firing bullets at him."—Philadelphia Record.

### 20 YEARS AGO IN OAKLAND

Miss Amy Requa is at Monterey. Fred Mehrmann of Sunol and Mamie Lyon of Irvington, were married at the Catholic church at Mission San Jose on Wednesday. The Rev. C. W. Wendt will return from Europe in the latter part of August. Mrs. Bernard Moses is visiting in Los Angeles. She will return to her home in Berkeley soon. Mark Thall, the theatrical headlight, is making a tour in the East. John W. Mackay is in New York. Mr. and Mrs. Isaac Upham are at the Colonial for a few weeks. Mrs. Charles Webb Howard is spending a few days with friends at Del Monte. The San Jose team of the Coast League won the pennant for the first championship season. They were tied with Los Angeles for first place until the deciding game on Haight street yesterday afternoon. Congressman W. W. Bowers was re-nominated for Congress by the county convention in the sixth district. Mathew Sullivan, proprietor of the Arcade stables, was thrown from a runaway, this afternoon and seriously injured. Evangelist B. Fay Mills concluded his revival work in Oakland with a monster meeting in the Tabernacle. San Jose won the deciding game, 4 to 2. Oakland was last in the four-team race. Peter Van Halten, father of George Van Halten, the ball player, died in Oakland last night. Judge Hilborn gets the nomination for congress from this district.

## CRAZY? LEARNED? YOU'RE SCIENTIST

Chicago Attorney Says So  
When His Client Is Sent  
to Jail.

CHICAGO, July 26.—Finger-print evidence, the latest addition to the official thief-taker's armory, was the basis of a verdict of guilty returned yesterday by a jury against John C. Hartzell, accused of stealing from the museum of the University of Chicago, a golden amulet owned by a Pharaoh, five thousand, three hundred years old.

The shadowy past was linked to the present by university professors who testified to the authenticity of the golden ornament. Hartzell presented himself in addition to his attorney, disputing the conclusion of the Egyptianologists.

In his argument Attorney John F. Geeting, counsel for Hartzell, commented on the testimony of University professors who were witnesses.

"A professor of science is a man who can see a mosquito on the Masonic Temple scratch his back with his left hand and not be able to see the temple," said Attorney Geeting.

Getting attacked the finger print system and compared it with the old-time fashion of detecting witches by sticking needles into them.

"Thousands of persons were hanged on the theory of witches," said the lawyer, "and thousands of other persons right here will be sent to the penitentiary on finger print evidence if you jurors by your verdict support it."

## MILITARY DICTATOR MAY RULE IN CHINA

PEKING, July 26.—The military commanders in Peking held a meeting yesterday at which they resolved to urge President Yuan Shi Kai to insist that the assembly appoint a selection of members of the cabinet. Otherwise the commanders declare they will assume control of affairs personally. This action toward a personal dictatorship of Yuan Shi Kai supported by the military has been expected for some time.

## THEY GROW HAIR

Certain Ingredients if Properly Combined Stimulate the Human Hair Growth.

Resorcinol is one of the most effective germ destroyers ever discovered. Beta-naphthol is a most powerful, yet absolute safe germicide and antiseptic which prevents development of germ matter and creates a clean, healthy condition.

Pilocarpine, although not a coloring agent, does, in an ingredient well established for its power to restore natural color to human hair.

Dorax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Resorcinol "33" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, even though the scalp is bare of hair, providing, of course, there is life and vitality remaining in the hair roots.

We want every one troubled with scalp disease, dandruff or loss of hair to try Resorcinol "33" Hair Tonic. If it does not remove dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has effected most satisfactory results in 93 out of 100 cases where put to a practical test.

Resorcinol "33" Hair Tonic is entirely unlike and in every particular different from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1. The Oak Drug Co., Inc., Tenth and Washington, Thirtieth and Broadway, Sixteenth and San Pablo.

## FLAG IS RESTORED TO MAIL VESSELS

New Contract Drawn Up With  
Oceanic Steamship  
Company.

SAN FRANCISCO, July 26.—The American flag has been restored to mail steamers between the Golden Gate and Australia, dispatches being received from Washington yesterday that Postmaster-General Hitchcock had signed a new contract with the Oceanic Steamship company.

The contract not only means that the mail line between San Francisco and Sydney will be re-established by the Oceanic steamers, but that the company will also compete with the lines operating through the Suez canal to Liverpool and will inaugurate a quicker trip by way of San Francisco, New York and by the fast express steamships across the Atlantic to England.

The renewal of the contract with the Oceanic company by the government has been expected since Frederick D. Samuels went to Washington several months ago to have a series of conferences with President Taft, Postmaster-General Hitchcock and Solicitor-General Lehmann.

The contract has been renewed with the Oceanic steamers under the mail subsidy of March 3, 1911.

In anticipation of the renewal of the contract the Oceanic liner Sonoma left San Francisco with London mail July 2 and arrived in Sydney last Monday. She sails for this port tomorrow, and will arrive every twenty-eight days in making the trip with the Oceanic steamship Ventura.

The company gets a subsidy of \$2 a mile for carrying the mail for the government. It was obliged to relinquish the original contract entered into with the government under the act of 1891, because of the slow time made by its coal-burning liners. Both the Sonoma and the Ventura have been installed with oil-burning apparatus, and will experience no difficulty in making the trip within the stipulated time.

## WOMAN IN CHINA, IS HER SUBJECT

Mrs. D. B. Wells Is Speaker at  
the Mount Hermon  
Conference.

MOUNT HERMON, July 26.—Wednesday morning Mrs. A. K. Gurney of Assam led the "family prayer" at the Mission Building. Miss Laura Richard of Saratoga presided at the school session, which began with a Bible talk by Mrs. D. B. Wells on "Three Crises in the Life of Joshua." A half-hour conference was conducted by Mrs. George Coleman on "The Woman's Missionary Movement and Its Influence on the Chinese Woman."

Other subjects discussed were "Practical Good Housekeeping," "Beware of Tongues," "The Duties of a Christian Woman to Her Husband," and "The Christian Woman's Influence on the Chinese Woman." A telegram of greeting was received by the Mount Hermon School from the Women's Home Mission Conference now being held in Northfield, Mass. Mrs. Coleman and Mrs. Beach were authorized to send a return telegram. Mrs. Wells stated that she brought up greetings from the other summer schools in Minnesota, Omaha, Boulder Creek and Winona Lake. The registration of Mount Hermon Federal School, so far, was announced by Mrs. Beach to be 113. Many unregistered persons also attend.

A religious rally of the Congregational churches at Epworth Church, where President Fuller, for thirty years at the head of Aintab College, Turkey, addressed the meeting. At 7 p. m. Mrs. Wells spoke in the auditorium on "The Mormon Sacred Books." Following this were addresses by three Presbyterian ministers among the Indians, Miss M. J. Chase, teacher among the Hooper Indians in the northeast part of Humboldt county; Miss U. L. Moore of the Good Will Mission to Sioux in South Dakota, and Mrs. Gay, missionary to the Indians among the rocks and lava beds of Shasta county. At the evening session Mrs. Geo. Coleman of Boston spoke on "The Ministry of Women for Home Missions," and told of the coming great campaign for Home Missions all over the United States next November.

## PRESIDIO GOLFERS WOULD KEEP LINKS

Frantic Protest Made Against  
U. S. "Keep Off Grass"  
Order.

WASHINGTON, July 26.—Frantic appeals reached Washington yesterday from prominent members of the Presidio Golf Club, begging that the War Department reconsider its order prohibiting the further playing of golf on the Presidio grounds.

The burden of the appeals descended upon Senator Perkins, who promptly took the matter up with the War Department, at present the fate of the golfers hangs in the balance.

Among those who joined in the plea to save the game at the Presidio were Andrew Carrigan, William J. Dutton, Bernard Ferryman, W. C. Ralston, M. S. Sloan, Hollis V. West, Charles H. Bentley, C. C. Moore and Thery L. Ford.

At the War Department it is officially given out because golf must go because the Presidio links are now needed for more warlike purposes. Behind the official version, however, it is hinted that the department has become embarrassed at complaints of discrimination in the use of the links and that to solve the problem the edict went forth.

## PETALUMA PRIEST ILL

PETALUMA, July 26.—Rev. Father M. O'Shea, assistant pastor of St. Vincent's church, became ill Saturday and his condition is causing much alarm. Father O'Shea recently submitted to an operation at St. Mary's hospital, San Francisco, and since that time has been in robust health.

## A Physician's Report on Tuberculosis Medicine

"Have used Eckman's Alternative in several cases of tubercular glands of the neck, with excellent results every time. In one case it cost me \$50, for the girl was put on it only until she could arrange to be operated, and in a short time an operation was not needed. I suppose your records are just as fine as of old. You know my facts."

## REALTY DELEGATES TO BE NUMEROUS

Members of Oakland Association  
to Attend State  
Convention.

Secretary C. Fred Burke of the Oakland Real Estate Association reports that during the past week many new candidates among the local realty fraternity have appeared for election as delegates to represent Oakland at the annual convention of the California State Realty Federation, which is to be held at Los Angeles, August 15, 16 and 17. Among these are Sawyer H. Masters, R. S. McHenry, P. W. Morehouse, Frank A. Parish, Henry Barkness and H. T. Mahonke. It now appears that it will be possible for a large party to be made up to make the trip in a body.

## CORONER'S JURY FREES BELL OF SUSPICION

SAN FRANCISCO, July 26.—After a prolonged session in the coroner's office yesterday, during which recriminations and even direct accusations of murder were made by Edward A. Cunha, assistant district attorney, at the inquest on Miss Elizabeth Bell, who died at the Berling Institute, 800 Page street, under what were alleged to be mysterious circumstances on July 7 last, the jury brought in a verdict of death from natural causes. There were repeated occasions during the inquiry when Coroner Dr. B. W. Leland reprimanded Cunha, and Attorney Edward I. Barry, for Fred Bell, husband of the woman into whose death the inquiry was held.

Witnesses who were called included the expert specialists Dr. J. Wilson Shields, Dr. William Fitz Cheney, Dr. Peter A. Kearney and Dr. H. C. McFarlane. Mrs. Minnie Nassauer, a former nurse at the Berling Institute, who was mentioned by Cunha as having been dismissed because she refused to administer hyocine to the patient, in her evidence denied that that was the cause of dismissal.

Dr. John F. Sullivan said that when Mrs. Bell was taken to the institute she was fairly healthy. Mrs. Mary C. Scott of 4118 Twentieth street, with whom Mrs. Bell lived for a while, said that she was in good health when she was taken to the institute.

## RUNAWAY BOYS SOUGHT

MONTESE, July 26.—The police have been asked to search for Harry Lincoln, 15-year-old son of J. Lincoln, who disappeared last Sunday. The boy is believed to have run away with Michael O'Brien, a constant companion, and it is feared that the lads made their way to San Francisco for the purpose of going to sea.

## STAGE HANDS MAKE SEVERAL DEMANDS

Theatrical Managers Consider  
Proposed Agreement With  
Employees.

NEW YORK, July 26.—Representatives of the National Association of theatrical producing managers are conferring in New York this week over recent demands made by the Stage Hands' Union, which has become very powerful in recent years.

The new contract which the stage hands ask the producers to adopt, contains a considerable number of provisions which are considered objectionable by the managers. The most conspicuous of these being paragraphs providing for the engagement of the stage hands during the entire life of any play, for which they may have been engaged, and the other denying to the manager the right to discharge an incompetent stage hand.

A statement issued in behalf of the managers says: "We are willing to pay union wages and employ union men, but we refuse to sign any other, but feel that contracts with our men."

## PARLOR MATCH STRUCK BLOW AT CONVENTION

SPOKANE, Wash., July 26.—The "parlor match" was vigorously condemned by the national convention of the National Association of Fire Marshals, which adopted a resolution recommending the enactment by each state of a law modeled on the Louisiana statute forbidding the use of the single dip, which phosphorous match. The convention also endorsed the proposal of the Fire Marshals' Association looking to the adoption of a uniform fire marshal law.

Willard Dona of Utah, in an address on "Public Safety Education," recommended the establishment of regular courses on insurance in universities, colleges, high schools and even in the grammar grades.

## EXPULSED WEST POINT MEN LOSE THEIR CASE

WASHINGTON, July 26.—War department officials held that the four West Point cadets who were court-martialed and expelled from the military academy on September 5, 1911, for "drinking intoxicating liquors in violation of the articles of war," will not be benefited by the Senate's joint resolution freeing President Taft to reconvene the court and try them again. Army officers maintain they may reconvene the military academy only through reappointment. The men were Elliott H. Freeland of Jacksonville, Fla.; Ralph L. Barnes of Wilmington, Del.; Tattall D. Simpson of Gary, Ind.; and John E. Christian of Danburg, Va.

## CLUBMAN SUED BY 19-YEAR-OLD WIFE

Mrs. Frank J. Casey Alleges Husband's Actions Have Not Been Proper.

SAN FRANCISCO, July 25.—In a secret divorce complaint filed by Mrs. Reba R. Casey, 19-year-old wife of Frank J. Casey, a well known clubman and politician, on Wednesday the wife makes a number of allegations, any one of which would be ample grounds for divorce. Mrs. Casey has kept herself well informed of her husband's habits through the constant aid of detectives for more than two years, she says. In many pages of closely typewritten copy Casey is pictured by his wife in dark colors.

The present divorce action is the ending of a childhood romance, when Miss Reba Richardson Charles, 15 years old, noted as one of the most beautiful girls of Missouri and late of San Rafael, and winner of many beauty contests, was wooed and won by Casey.

When the marriage was celebrated four years ago the affair was kept a secret from Casey's parents, Mr. and Mrs. Joseph C. Casey, of 190 Delaware street, for more than two years. Casey's friends and relatives all believed him to be a bachelor. He resided at the home of his parents while his wife was maintained in an apartment at 107 Delaware street.

When served with the papers Casey said he would contest the action by filing a cross complaint alleging ill temper on the part of his wife, that she smokes cigarettes and that she is guilty of other offenses he declined to mention.

Casey was in a happy frame of mind yesterday and said if his wife persisted in bringing her application to trial he would involve many prominent San Francisco men and women when he offers his defense. The husband does not deny that he enjoys the life of the bachelor. He is reported to be one of the most expert racetrack piano players.

Casey was in some difficulty before, when in 1907 he was arrested and charged with assault with intent to kill Frank Casey, a chauffeur. The matter was dropped without Casey being prosecuted. Mrs. Casey is at present residing at the Hotel Marx with her mother.

**RUNAWAY OAKLAND YOUTHS ARE SOUGHT**

SAN FRANCISCO, July 25.—Two boys, minus coats and hats, ran away from the Oakland probation home, yesterday, and are believed to have made their way to this city. The Harbor police were quickly notified to apprehend them, but up to noon today they had not been caught. The boys are Charles Serrano, 18 years old, weighs 115 pounds, and also has brown hair and eyes.

## SOLDIERS ACCUSED OF DRUNKENNESS

War Department to Investigate Charges Against Regulars and Militia.

CHICAGO, July 25.—War department officials may be called on to investigate reports published here that members of the Illinois and Wisconsin national guard and of the regular army gathered at Camp Douglas, Wis., to take part in maneuvers for which Congress appropriated money, engaged in a drunken orgy a few hours before the start of the campaign. It is said the officer in charge made no effort to put an end to the debauch.

Insults to women, street brawls and soldiers in a stupor on sidewalks, or fallen into gutters, are alleged to have marked the opening of the campaign a mockery. The men of the “Red” army are not accused. They were 15 miles away.

**PENNSYLVANIA ROAD PLANS STEAMER LINE**

NEW YORK, July 25.—A Philadelphia special to the World says it was asserted there yesterday that the Pennsylvania Railroad Company is getting options on an immense tract of land along the Delaware river with the intention of starting a line of steamships to ply between New York and Philadelphia and cities along the Pacific coast as soon as the Panama canal has been completed.

When this report was brought to the attention of the officers of the railroad today it was denied, but the independent shippers declare they have the evidence to prove it.

The independent ship owners here are using this alleged activity on the part of the Pennsylvania railroad as a basis to memorialize Congress to give the independents a free passage through the canal and to place a toll on the lines owned or controlled by the railroads.

**GOVERNMENT AWAITS TRUST DISSOLUTION**

CHICAGO, July 25.—James S. Wilkerson, United States attorney at Chicago, is expected here the latter part of the week to present to Attorney-General Wickersham the full details of the meat-packer's plan for dissolving the National Packing company in harmony with the government's contentions under the Sherman anti-trust law. The attorney probably will not insist that the dissolution, if approved, be ratified by a court decree. It was indicated today that the department of justice might be willing to see how the plan worked.

## OAKLAND PUPILS TO BE KEPT IN OWN BACKGROUND

Local Children Will Not Be Taught Longer in the Berkeley Schools.

SUPERINTENDENT JAMES ISSUES ULTIMATUM

Typewriters Cause Trouble for Oakland Teacher; McClymonds Makes Report.

Oakland school children who are in the habit of going to Berkeley schools will hereafter play in their own back yards. This was the ultimatum handed yesterday by Superintendent James C. James, superintendent of the Berkeley school system, who appeared before the local board of education in person.

“The new school law,” said Superintendent James, “provides that in the apportionment of funds, no matter where the child is taught, the state will pay the funds to the district in which the child has its legal residence. Last year, Berkeley taught eighty children who lived in Oakland so close to our line that they were nearer to the Berkeley schools than to their own.”

The proposition is such that hereafter we will be compelled to tell the parents that we can no longer afford such a policy and they will have to send their children to Oakland schools. Last year you were paid \$122 for tuition which we gave your students. That is not fair, and we will not stand for it any longer.”

After James had spoken, the problem was referred to the elementary school committee for possible solution. The suggestion was made that Berkeley might possibly continue to teach Oakland students, but charge them a fee sufficient to pay expenses. The legality of such action was questioned.

**TYPEWRITERS CAUSE TROUBLE.**

T. L. Brachman, an instructor in the Commercial Department of the Fremont High School, may be a first-class teacher, but in the opinion of the board of education his methods of doing business will never bring him anything but trouble, and then more trouble.

With superb nonchalance, Brachman on January 18, signed a contract for the purchase by the board of education of 23 typewriters, and again on March 26, he contracted for 21 more. The fact that the board of education was not consulted about the purchases was a matter of apparent amazement to the board.

McClymonds reports.

Interesting statistics of the school children who enter high school after leaving grammar grades and the percentage of successful work done in both, were submitted by Superintendent J. W. McClymonds. McClymonds' report was based on records of several years and summarized, was as follows:

Of the 2251 pupils graduating from the grammar schools, 1434 have entered the high schools, 778 of these have done good successful work in the high schools, 604 have done fair work, and 143 have done poor work. Reduced to percentage, it would read thus: 64 per cent of the pupils who graduate from the grammar schools enter the high schools; 48 per cent of these do good successful work; 43 per cent do fair work, and 10 per cent do poor work.

The percentage of graduates from the different schools in the city who enter the high school, varies from 25 per cent to 95 per cent, average as stated before being 64 per cent.

“The teachers of the high schools, reporting upon the preparation of pupils in the grammar school, report that 61 per cent of the pupils who enter the high school have had good or excellent preparation, 36 per cent fair preparation, 13 per cent poor preparation. The same teachers, reporting upon the type of work that they believed the pupils would do in the high school, reached, on the average, nearly the same conclusions.”

At the request of the Civil Service Board, authorization was given that the department to call upon the various officials of the board of education for data to aid in the proposed reorganization of the board.

**LOCAL HOTEL MAN DIES FOLLOWING OPERATION**

George E. Hawes, a well known hotel man, died Wednesday afternoon following an operation, at the East Bay Sanitarium. Hawes was formerly with the San Francisco Gas and Electric company of this city, and was well known in political circles. He was associated with Edward Rolkin for 15 years.

Decedent is survived by a widow and a three-year-old daughter. The funeral services will be held in Berkeley on Monday under the auspices of the Woodmen of the World of Berkeley, of which he was a member.

## LEGISLATIVE FLOOD REACHES CONGRESS

All Records Broken by Number of Bills and Resolutions Introduced.

WASHINGTON, July 25.—With still another session of the Sixty-second Congress to be held, the number of bills and resolutions already introduced at this Congress has surpassed all previous records. By March 4, 1913, when the Sixty-second Congress ends, it is confidently expected that a record will have been made which will stand for many years.

There have been 25,924 bills introduced in the House thus far, and 7349 in the Senate. In the two houses combined there have been introduced 1002 simple resolutions, including the action of a single house; 464 joint resolutions and 73 concurrent resolutions. The Senate has printed 581 public documents and 962 reports on bills; the House 873 documents and 1052 reports.

The extent to which Congress is swamped with measures never enacted into law is indicated by the fact that up to Wednesday, when these were compiled, only 231 public laws, 61 private laws, 43 public resolutions and 1 private resolution had been passed.

**NEWS OF MARRIAGE SURPRISES FRIENDS**

News of the marriage of Mrs. G. D. McLaughlin, widow of a former prominent San Francisco hotel builder and contractor to H. A. Slater, a real estate operator of Berkeley has interested North Oakland society.

The couple were quietly married on Saturday and are now in their honeymoon. Mrs. Slater has been residing with her sister, Mrs. E. W. Brown, at the Berkeley apartment, Telegraph avenue and Forty-first street. Slater has occupied bachelor quarters at 2084 University avenue, Berkeley.

Berkeley folk supposed that the groom was engaged to Mrs. Josephine McClenaghan, 528 Third-street, Oakland, who left on June 29 on a vacation trip to Alaska and who is not expected to return until next month. The relatives of the bride refuse to discuss the matter. They admit that the marriage was rather “sudden.”

**FOUND GUILTY OF BATTERY.**

RICHMOND, July 25.—John Brimstone, former proprietor of the Golden West hotel, was found guilty of battery on the person of Joseph Carter, one of his former boarders, last evening, by Police Judge Lindsey following a long trial. Carter testified that Brimstone entered his room and started to take his only suit away for a board bill, and that when Carter remonstrated Brimstone attacked him, knocking him down. The court will pronounce sentence tomorrow morning.

## QUESTIONS STAR OF 'QUESTION,' BINGO!

Attorney Seeks Redress for  
Alleged Attack Made by  
Actress.

SAN FRANCISCO, July 25.—"A Question" is the playlet being presented at the Market street theater by Estelle M. Allison and a company of supporting players. This may be characterized as Question No. 1. Question No. 2 was asked by Eric G. Scudder, a young attorney of the Mills building, who sought to serve a

summons upon her last night. Her interrogation shot at him in the darkness among the wings and scenic accessories of the playhouse constituted Question No. 3, and the fourth question, as yet to be answered and will consist of the decision rendered in Police Judge Sullivan's court when the case is called tomorrow. Meantime Scudder is questioning the wisdom of serving papers on an actress who, he says, wields a duster and mirror in a fashion which would earn chevrons could it be duplicated by a private soldier with his weapons.

### ON COLLECTION TOUR.

Scudder, representing O. Porel, a tailor at Sutter and Stockton streets, started out to collect \$25, balance due on the making of a collar and coat for Miss Allison. He entered the stage door of the theater and inquired for her from stage hands whom he could but dimly see in the dim light back of the rear drop. Out of the darkness he declares there came a feminine voice, "I am Miss Allison. What do you want?" He thereupon explained his mission and

at that Miss Allison struck him with the duster, breaking his straw hat and shattering the mirror over his head. He obtained a warrant this morning and the final answer to all the questions is not yet.

Miss Allison is reported to be a local society girl and her present engagement is said to constitute her debut on the stage.

### SON OF REAL ESTATE MAN IS BENEDICT

GEORGE HOLMES of this city and Miss Olive Gillespie of Ukiah were married July 24 in the bride's home town. Holmes is the son of S. O. Holmes, a prominent real estate man of Oakland. The couple will reside in South Berkeley.

### ON WAY TO VALLEJO.

VALLEJO, July 25.—According to private advices received here today the cruiser Denver will leave Santa Cruz for Mare Island Monday. She will be fitted out with additional stores preparatory to her trip to San Diego, August 10. From there she will proceed to Central America.

## WIFE DISAPPEARS WITH 3 SERVANTS

Mrs. N. J. McNamara, Wealthy  
San Mateo Woman, Deserts  
Home.

SAN FRANCISCO, July 25.—The finale to a number of extraordinary incidents in the household of Nicholas J. McNamara, retired business man and director of the Anglo-California Trust Company, whose wife is reported to be worth \$400,000, was uncovered yesterday when a warrant was issued by Police Judge Shortall and sworn to by McNamara, for the arrest, wherever they may be located, of one woman and two men, all former servants of the McNamara home at San Mateo.

The complaint accuses the trio of having stolen a touring car but the keynote is sounded in the fact that Mrs. McNamara and her two boys have been taken away alive.

Since June 22, when Mrs. McNamara disappeared with her children accompanied by Mrs. Charles L. Perkins, a housekeeper, Fred Patton, chauffeur and Pat Welch the gardener, nothing has been heard of her except through the bank, where her drafts have continued to arrive in an incessant stream.

McNamara believes his wife to be the victim of an evil influence exerted by the erstwhile housekeeper, and his anxiety toward the erring wife has been changed to a determination to punish her.

Where the runaways are at present McNamara does not know, but according to vague information it is learned that they sold a touring car in Portland last week and proposed to be brought back to California possibly by Eugene McNamara, believed to be in the city.

Arriving in the midst of the family wreck, Miss Gladys McNamara, a beautiful and accomplished 19-year-old daughter of the couple who has spent a year and a half abroad, is now in the hands of the police.

McNamara consented to Police Judge Shortall's arrest of the trio, but a firm stand in her father's defense.

**SOCIAL CLUBS TO BE PLACED ON GRILL**

SAN FRANCISCO, July 25.—District Attorney Fickert has discovered what he believes to be new style hotels from the road houses of the South. He has issued orders to the police to place on the grill the social clubs and parties which he believes are now being held in the city.

## WEALTHY SOCIETY WOMAN MISSING

Mrs. Dorothy Marcus Flees  
From Home That Love  
Had Quit.

MONTCLAIR, N. J., July 25.—Mrs. Dorothy Marcus, 25 years old, wife of William Elder Marcus Jr., of Montclair, it became known today, disappeared from her home Monday, and her voluntary absence, explained in a remarkable story in this issue, is the result of a love affair with a young man, the son of a prominent family of Montclair, N. J.

Their wedding was the outcome of a romance that began when Marcus, a young architect, and his wife, who was then Miss Dorothy Conkey of Pasadena, Cal., met on an ocean liner returning from Europe. The young man fell in love at first sight. It is said, proposed and was accepted. Their wedding at the home of a relative in Tarrytown was a society event.

Mrs. Marcus, in the parting word to her husband, says now that the wedding was without love on her part, and her conduct for the last few years indicates that she spoke the truth. Mrs. Marcus from the first displayed her lack of interest in domesticity. The social life of Montclair, New York, for that matter, palled on her.

She spent her time with horses and dogs, and the means of her young husband enabled her to indulge to the limit in the acquisition of these pets.

**DAUGHTER ARRIVES.**  
When a young daughter arrived at the home two years ago, Mrs. Marcus, it was expected, would have a greater interest in home life, but this event, usually anticipated with pleasure, developed no strong feeling of maternity in the young woman, nor did the arrival of the second daughter six months ago.

There was no breath of scandal in the life of the young woman; the couple indulged in no quarrel. Mrs. Marcus simply announced herself at various times as tired of the environment of home life, and before long her husband and his parents recognized that the existence had become unbearable for her. They realized that it was only a question of time when a break of some kind would occur.

The expected happened on Monday. Marcus, returning home from his business, found a note from his wife. In it she told him that the conditions were becoming more unendurable for her. In order to be consistent as wife and mother to her husband and children as well as herself, she felt it a duty to sever the bonds that tied her to her home life.

**DELIBERATE PLAN.**  
Her act was not that of a momentary impulse, but it is believed to have been deliberate, carefully planned and consummated. The note, though regretful, did not show any great evidence of deep sorrow. Mrs. Marcus did not say in the note where she intended to go. In fact, she is in the city and has no relatives in this country that she might turn to. It is surmised that she will join her father, however. She is possessed of much wealth in her own right, so that her husband has no fear that she will suffer from lack of funds.

Young Mrs. Marcus was held in high esteem by the family of her husband. They viewed with deep regret the manifestations that preceded the severance of her home ties and tried in every way to mitigate the conditions which were so unendurable to the young wife. They feel yet, indeed, that there will be a revulsion of feeling on her part; that the loneliness of life that she has chosen will pall on her, and that she will feel impelled to return to her husband and little ones.

Mrs. Marcus was prominent in society. She rode horseback in all kinds of weather and it was an idiosyncrasy of hers to affect the most unusual costumes. For this reason she was sometimes a striking and picturesque figure on the streets. She had horses entered in the annual show of the Montclair Riding, Driving and Automobile Club. Mrs. Marcus was raised on a ranch in California and this account in a large measure for her love of outdoor life.

Love of home and children was subverted to the instincts that there were developed by the rugged life that she led before marriage. She was not a materialist or a miser, however, in following the strenuous life, but rather retreating in her disposition. The Marcus family is one of the most prominent socially in Montclair.

**'TIS FALSE, HE SAYS; THERE'S LOTS OF IT**  
CHICAGO, July 25.—Half the hair worn by fashionable American women during the next year will be from someone else's head. The latest fashions call for 50 per cent false hair to give a background and foundations to the complications planned, and according to Herbert Harris, hair expert, practically all the supplementary hair worn in the United States is grown in foreign lands.

**MITCHELL SEEKS WAY TO EVADE JAIL TERM**  
CHICAGO, July 25.—John Mitchell, the American Federation of Labor leader, sentenced to nine months in jail for his part in the contempt proceedings arising from the suit brought against his organization by the Bucks Store and Range company, spent part of yesterday in Chicago, and outlined his plans for evading the jail term.

**COLORADIANS TO CELEBRATE.**  
SAN FRANCISCO, July 25.—The Colorado Society of California will celebrate the anniversary of Colorado's birthday in the club rooms of the California Club at 1734 Clay street, between Oak and Van Ness. A short program has been arranged for the occasion to be followed by dancing and a large refreshment committee will serve refreshments.

## CLERK IS VICTIM OF MOTORCYCLIST

Oscar Bruml Run Down and  
Sustains Possible Fracture of Skull.

Further ammunition for those who are heading the fight to place restrictions upon motor vehicles in the downtown district was furnished last night when Oscar Bruml, a cigar clerk, was run down at Sixteenth street and Telegraph avenue, and taken later to the Fabiola Hospital with a fracture at the base of his skull. Whether Bruml will survive is problematical.

The motorcycle, which ran down Bruml, was ridden by J. C. Simpson, who lives at 1644 San Pablo avenue. The clerk was about to board a street car and became confused when he saw the car approaching him. The motorcycle knocked him to the street, Bruml struck his head on the pavement.

First aid was accorded the injured man at the Receiving Hospital, but when the seriousness of his injury was discovered, he was removed to the Fabiola Hospital, where an operation will probably be performed today. Bruml lives at 640 Eighth street.

Bruml had planned to go to Paris to marry an old sweetheart. He had purchased his ticket to Europe yesterday and had it in his pocket when injured. Just before leaving for Paris he had called on an insurance agent, Bruml is a member of Aahnes Temple, Mystic Shrine.

The movement to have the city council pass an ordinance forbidding motorcycles in the shopping district and restricting them to certain streets under proper supervision was inaugurated by W. J. McCoy, a Bohemian clubman and composer, whose leg was broken in a similar accident a few weeks ago.

## Consider Quality First--Then Price

Consider, first, the quality of the Piano you expect to buy. Look carefully into the reputation of its builders—scrutinize the character of its workmanship, the material used; analyze its tone and test thoroughly its action. Then consider well the reputation of the house of which you buy.

Do not be deceived by the lure of unreasonably low price. The very cheap Piano is necessarily of the cheapest possible construction and materials. It is the product of slipshod methods, of inefficient workmanship and possesses neither tone, durability nor artistic finish.

The cheap commercial Piano finds no place in our stock. Instead we show only the product of factories noted for the worth of their Pianos, the artistic quality of their tone and their durability.

An examination of our stock will convince you that, quality considered, good, satisfactory Pianos may be purchased here at prices which are much lower in comparison than elsewhere. Not only are our prices lower, but you have the most favorable terms and the knowledge that the Piano purchased is fully guaranteed against any and all imperfections of workmanship and material.

This week we are showing an especially fine lot of used Pianos that are great bargains. The easiest possible terms are made on them, and the prices are very low.

**M**ISS CECILIA CHILD and Charles Harold Ramsden will be married in the early fall at the home of the bride's father, Wendell S. Childs, in Fruitvale.

The betrothal was announced late in the spring and it was then stated that the wedding would not take place until the coming year, but the couple have changed their plans and the marriage date is hastened by several months.

The ceremony will be simply appointed. It will be followed by a large reception.

Miss Childs is a graduate of the state university, as is also Ramsden. The latter is the son of Mrs. Caroline Ramsden. His business interests are in San Francisco, and he is prominent in club circles.

Miss Klythe McGee's engagement to David Madison Willis is of much interest here. Miss McGee is the daughter of Dr. Anita Newcomb McGee of Berkeley. Willis is a graduate of the University of Virginia, and his family is a prominent southern one.

Miss McGee is at present with her grandmother, Mrs. Simon Newcomb, in Connecticut.

The wedding of Miss Edith Gere Kelley and John Woodruff Garthwaite will take place the latter part of September. Both young people are well known here. Garthwaite is the son of W. W. Garthwaite, president of the Oakland Bank of Savings, and Mrs. Garthwaite. He is a brother of Mrs. Arthur Tashler.

The couple will live in the north probably, where young Garthwaite has extensive orange grove interests.

**DANCE TONIGHT.** Miss Frances Sherman, a hostess girl, visiting in this city, will be the motif for a dance to be given tonight by Mrs. W. C. B. De Fremery at her home in this city. About half a hundred friends who are still in town have been asked for the evening.

**RETURN TO PIEDMONT.** Mrs. Isaac Regan and Miss Florence O'Neill have returned to Piedmont after a trip to Del Monte.

**WELCOMED HOME.** Miss Marguerite Carpentier was welcomed home this week after a tour of the Orient and Hawaiian Islands in company with Colonel C. L. Tilden and Mrs. Tilden.

**TO BE HOSTESS.** Miss Helen Sutphen will be hostess on August 16, during the visit of her honored guests Miss Edith Porter and Miss Christine Turner, brides-elect.

**OAKLANDERS AWAY.** Mrs. J. Cal Ewing and Miss Grace Ewing are spending the late summer in Castella. Miss Ewing will go south in the fall.

The Charles Mallory Duttons are now touring Eastern Germany, and will spend the season among the lakes of Switzerland. They will sail for America this week, arriving at their Berkeley home about October 1.

Miss Vera Cope, who has been in Seattle visiting Mrs. David Hartley, will return home the middle of next month. Miss Almeda Jorgensen has joined her parents, Mr. and Mrs. Chris Jorgensen, in the Yosemite valley. Miss Alberta Higgins is her house guest.

**RETURN FROM HONEYMOON.** Mr. and Mrs. Dennis Manion have returned from their honeymoon and are at their Alameda home, where the latter will entertain during the late summer.

**REVISITS OAKLAND.** Dr. E. K. Bell, wife and daughter, are spending the summer with Doctor Bell's mother at the Alexandria on Webster street. Doctor Bell resides in Los Angeles.

**ARE HOSTESSES.** Miss Marie Wolfing was a recent hostess.

## HAWAIIAN HEIRESS WEDS AMID POMP AND SPLENDOR IN ISLAND

Miss Thelma Parker Becomes Bride of Henry Gaillard Smart of Virginia.

HONOLULU, July 25.—With a pomp that recalled the royal ceremonies of the Hawaiian monarchy in the days of the kingdom, Miss Thelma Parker, daughter of Mrs. Frederick Knight of San Francisco and one of the wealthiest heiresses in Honolulu, was married yesterday to Henry Gaillard Smart of Virginia at her Waimea estate.

Several hundred guests took part in the nuptial feasting and dancing that concluded a week of entertaining to which the smart set of Honolulu was invited, the affair probably being the last to be projected on the splendid scale for which the reigning Hawaiian family was famous in the days of fetes and gala formalities.

The bride, who distinguished herself some time ago by making such princely gifts to public welfare and philanthropic enterprises, is one of the richest girls in Western America. The story of her generosity is now well known everywhere.

On acquiring her inheritance last February, Miss Parker made a trust fund of her fortune, giving half of her wealth to her mother, Mrs. Frederick Knight, and one-fourth to the beneficiaries named by her. This is even better than Andrew Carnegie's giving, for the little beauty gave her income away in such a manner that it could not be touched during her lifetime, and really parted with half of her great fortune "for keeps."

The week's festivities just concluded brought all of the old family friends together, the people of the village whose ancestors had paid tribute to the ancestors of Miss Parker joining in the gala events.

There was a water carnival and all sorts of horse races and lavat throwing on the Parker ranch, where tens of thousands of cattle roam over the hills.

The young bride is one of the best horsewomen on the islands, able to ride any sort of a mount. When in San Francisco her equestrian feats were the absolute despair of the other young girls and even at that she never really let herself "go" to the limit of her ability, the park and the beach not being proper places for the well-bred ideas of the young woman, for such exhibitions.

**Stork Hovers Near** NEW YORK, July 25.—The American friends of Mr. and Mrs. Oscar Lewisohn learned yesterday that the stork is hovering over the English home of former Edna May. The tidings have just been brought to New York by returning friends.

Mr. and Mrs. Lewisohn visited New York last spring. At that time Mrs. Lewisohn declared she was forever done with the stage.

"The theater has no more lure for me than a mud puddle," she declared, "except that I love to go and watch others work. I am entirely domesticated. My husband and my home fill my life."

**Plot Is Suspected** DENVER, Col., July 25.—Developments seemingly contradictory to the theories of suicide, accidental death, or of death at all, have caused two insurance companies to demand the exhumation of the body buried as that of Miss Candace Wheeler of this city and Brooklyn, N. Y., after she was reported drowned. Their attorney here will confer today with the attorney for Dr. J. H. W. Meyer, the beneficiary of \$12,500 insurance left by Mrs. Wheeler.

Miss Wheeler was in comfortable circumstances, while visiting a local lake resort a few weeks ago, suddenly declared she wished to catch a fish "all by herself." She rowed out to a cluster of reeds. Two soldiers saw her in the boat and a few minutes later found her body. After dredging for two days a body, identified as that of Miss Wheeler, was recovered and buried.

**Cupid Is Patient** SPRINGFIELD, O., July 25.—Henry Zimmerman, a merchant tailor of San Francisco, and Miss Hermine Holtzmueller, for a short time a resident of Springfield, were married here yesterday. The Rev. E. W. Hoffman, a cousin of the bride, officiating.

The wedding was the result of a romance that began years ago in Germany, where both the contracting parties were born.

Twenty-two years ago Zimmerman and the bride's two brothers came to America. Zimmerman located in San Francisco, the Holtzmuellers here. Recently the bride came over to the States and a few minutes later found her body.

**Leaves million** POUGHKEEPSIE, N. Y., July 25.—Property estimated to exceed a million dollars in value is conveyed in the will of Anna Margaret Hayes of Millbrook.

Two sisters, Maria E. Waterman and Ella J. Patrick and a niece, Marguerite Waterman, receive legacies of \$100,000 each and are made residuary legatees in equal shares.

Bequests of \$5000 each are made to four children of the testatrix's deceased brother-in-law, William Hoste. Like amounts are given to nephews, Herbert Hoste Hoyt of Manila, P. I.; Herbert Hoste Sturges and Lindsey Hoyt of San Francisco; an aunt, Mrs. Thomas Mitchell.

**Accuses Society** PHILADELPHIA, July 25.—Mrs. Chas. J. Naylor, wife of a Lieutenant in the United States army, who is suing her for divorce, has accused the society for her position, where, she said, it is customary for married women to receive attentions from men other than their husbands. She went on the ground at a hearing before John M. Patterson, master in the proceedings, and told of her relations with Allen L. O'Brien, named in the case.

## THE BEAUTY OF PATIENCE

By LILLIAN RUSSELL

(Copyright, 1912, by Lillian Russell.)

In this work-a-day world we would exercise the courage of patience no furrows would ever line our brows or hearts. Impatience, anxiety and fear are the sharp-edged plows that drive deep ridges in our minds and countenances. More faith in the power above, more resignation to the inevitable resting upon the uplifting wings of divine love would quiet the aching heart, rest the tired nerves and smooth out the lines of worry and care that mar the faces of half the world. Impatience is like the fluttering bird that beats itself to death against its cage; it scourges and kills. The power of letting go of cares is the power to live long. The relaxation of mind in a patient decision to wait gives a stillness to the whole being that is refreshing and rejuvenating. We are all inclined to expect too much too quickly. Rushing at results never drives at perfection in anything. Children expect promises to be fulfilled at once. They chafe and fret at delays. It takes men and women to be patient. The best cure for impatience is occupation. When the mind is occupied with matters of interest or the body is being exercised in fresh air, waiting is but the matter of moments. We can never stop thinking, but we can control our thoughts. Right thinking is restful, while wrong thinking is devastating to mind and body. Remember, patience is the balance wheel that equalizes all forces.

## Answers to Queries

**CLARA**—I am sending you instructions for massaging the face and a remedy for flabby neck, also a hair tonic. I am answering your questions in the order you asked them.

**1.** I don't think steaming the face once a week will do any harm. However, it is not good to steam the face too often, as it yellows the skin and makes it dry in time. The best way to steam it is to dip a cloth in hot water and then place this over the face. Have the water just warm enough to be pleasant.

**2.** Do not pinch your cheeks to make them red. It will make them flabby and in time cause wrinkles. It stretches the skin.

**3.** There is little that can be done to change the shape of the nose. However, if you would gently massage it upward it would gradually grow that way. Be careful how you do this and do not do it too hard. It will not cause a growth or make the nose red if done gently.

**4.** Always massage wrinkles the opposite direction in which they run.

**EFFIE**—If you will send me a stamped addressed envelope I shall send you the formula for a bleach for tan. I cannot print it in my column on account of lack of space.

**MISS L. A. P.**—The little "white bumps" you speak of are called whiteheads or acne. They can easily be removed without much trouble and without leaving a scar. First, bathe the face in warm water until the flesh becomes pink and soft, then of each little seed acne with the point of a fine cambric needle which has been sterilized by dropping it into boiling water. Press or pick out the substance, then bathe in peroxide of hydrogen. I am sending you instructions for scalp massage and rules for deep breathing. Oil of lavender hasn't any value that I know of, and is rarely used for the skin, except to scent creams or lotions.

**MATILDA**—Apply the juice of a lemon to the neck at night before retiring. Allow it to dry on. Buttermilk and lemon juice are also good for bleaching the neck. Take a half glass of fresh buttermilk and add the juice of half a lemon to it. Apply to the neck and allow it to dry on.

**A. K.**—There is nothing I can give you to make you taller. You are still young and have plenty of time to grow. Take plenty of exercise and get plenty of fresh air. That is about all that you can do.

ful how you do this and do not do it too hard. It will not cause a growth or make the nose red if done gently.

## ATTORNEY TELLS OF McNAMARA AGREEMENT

## TRIED TO KEEP DYNAMITER FROM JAIL

Lecompte Davis Says News of Franklin's Arrest Agitated Darrow.

Steffens' 'Citizens Committee' Consisted of Two, Says Fredericks.

LOS ANGELES, July 26.—Lecompte Davis, formerly an attorney for the McNamara brothers, resumed the stand in the bribery trial of Clarence S. Darrow today and on cross-examination told of his connection with the compromise pleas of guilty entered by the imprisoned dynamiters December 1, 1911.

Davis testified that the final agreement by which James H. McNamara was to be sentenced to life imprisonment while John J. McNamara was to be given a fifteen-year term in the penitentiary was not definitely settled until 11 o'clock of the day they entered their pleas of guilty.

HOPED TO SAVE J. J. The witness explained, however, that previous to Monday, November 27, the day before Bert H. Franklin, former McNamara detective, was arrested for bribing a tentative agreement by which J. J. was to be sentenced to a ten year term had been made. Davis said he knew of J. J.'s willingness to accept such a sentence, but had not told Fredericks of it, as he still hoped to prevent the former secretary-treasurer of the International Association of Bridge and Structural Iron Workers from having to take any punishment.

Davis stated that while he had been told plans for a compromise in the McNamara case, an effort to effect more peaceful relations between capital and labor had been projected by Lincoln Steffens, publisher of the San Francisco Examiner, as early as November 20, 1911. It was not until two days later that he learned of it.

QUOTES FREDERICKS. Davis declared that on November 22, District Attorney Fredericks had said to him: "Why don't you people quit this horseshoe with the McNamaras and come across with pleas of guilty? You know they'll plead guilty in time, anyway."

I thought that was only baiter," said Davis to Fredericks, who was conducting the attorney's cross-examination. "You had often said such things before in the course of the trial of James H. McNamara. On that day, however, he said to me: 'Take hold of this fellow Darrow and make him tell you what's doing.'"

Davis told of several visits he had later made to Fredericks' office in connection with the proposed compromise. He said he had done his best to prevent John J. McNamara from going to the penitentiary at all, but that he had told Darrow Steffens and Fremont Older, a San Francisco newspaperman, that he was certain from talking with Fredericks that both of the McNamaras would have to plead guilty and accept prison terms if the prosecution were to agree to a compromise.

LEFT TO THE JUDGE. "You said," Davis stated to Fredericks, "that J. J., as well as J. H., asked you what you meant by a term of years and you said the judge would have to determine that."

Davis told of his visits to Fredericks and of the latter's insistence that J. J., as well as J. H., plead guilty. Finally the agreement was effected by which such pleas were to be made. That was in the morning of December 1, he said, and a court recess was taken until the afternoon, so that J. J., who had expected a ten-year sentence, should be prepared to appear in court to be given a fifteen-year term.

Fredericks questioned Davis about what he knew concerning the committee of Los Angeles citizens who were supposed to be interested in ending the McNamara case. Davis said he had been told by Steffens that a committee was at work on the matter.

TO ORGANIZE COMMITTEE. Fredericks stated to the court that the prosecution was trying to show that there had been no organized committee and asserted that only two

SEEK MATE, IS ADVICE TO MISS GOULD  
PASTOR POINTS WAY TO HAPPINESS

MISS HELEN GOULD, WHO IS IN MIDST OF ARGUMENT ON BACKWOODS MAIDS WITH PASTOR.

## 'Let Her Accept Position in Backwoods, Incognito; There She Will Find Husband'

GRAND JUNCTION, Colo., July 26.—Undaunted by the comment by Miss Helen Gould upon his sermon in which he asserted old maids should be isolated on a barren island as a waste product of the Rev. Elmer V. Ruffer of the First Christian church insisted that old maids were a detriment and a menace to society and advised Miss Gould to seek a mate, incognito, in the back woods.

"Miss Gould is a noble woman," he said, "but her nobleness would be greatly enhanced were she married. I don't attempt to dictate to Miss Gould what she should or should not do. Miss Gould has done more good for humanity than any other bachelor girl in this age and she can still do unlimited good."

"No woman has done her duty to the world until she has borne children."

Miss Gould is in a peculiar position because of her riches. She cannot be sure she is being wooed for love alone. The only way to solve this problem is for Miss Gould to accept a position in the backwoods incognito. Here she might find the right one, a righteous, industrious man who would love her for her true self and not for wealth. Her riches, she has said, have done more good for humanity than any other bachelor girl in this age and she can still do unlimited good.

"If Miss Gould wants two weeks of real enjoyment, two weeks of real happiness, let her disguise herself as a waitress and seek work in a cheap restaurant, let her clerk in a store or work as a chambermaid, anything so long as she earns her own living and lives on less than \$10 a week."

## French Ensign Flies Over Paris in Hydro-Aeroplane

PARIS, July 26.—"Andre Beaumont," whose proper name is Ensign Jean Louis Camille Beaumont, of the French navy, and who won the Paris-Rome-Turin aviation race, the European aviation circuit and British aviation circuit, flew across Paris today in a hydro-aeroplane.

He started from Juvisy-sur-Orge to Beaugency, following the course of the Seine. "Beaumont" intends to fly to England tomorrow in the same machine, crossing the English channel from Boulogne and then mounting the Thames from its mouth to London.

## Bourbon Solons Favor House Excise Tax Bill

WASHINGTON, July 26.—Democratic Senators in caucus today determined to support the House excise tax bill, virtually levying an income tax on all persons and no property, ships doing business of more than \$5000 a year, and to reject the Borah income tax bill offered as an amendment. There was some opposition to his course.

## IS YOUR CHILD NORMAL? TRY THESE TESTS

At 3 Years He Ought to Know Where His Ear Is Located.

If He Can't Copy a Square at 5 Years Something Is Wrong.

According to the Binet tests a child should be able at 3 years to tell where his ear is 4 years to know if it is a boy or girl 5 years to copy a square 6 years to repeat sixteen syllable sentence 7 years to copy a diamond 8 years to count backward from twenty 9 years to tell day of week, month and year 10 years to tell months of year in fifteen seconds 11 years to remember 60 different words in 3 minutes 12 years to repeat a number of 7 figures 13 years to tell difference between "pleasure" and "happiness."

UNIVERSITY OF CALIFORNIA, July 26.—Give your little boy or girl any paragraph containing 53 words. If he is 3 years old he ought to read it in 45 seconds, in 40 seconds if he is 4, in 30 seconds if he is 5, and in 25 seconds if he is 6. He can copy a square if he is 5 years old, but draw the square with a corner down instead of a side and he will not be able to copy it until he is 7.

These are a few of the Binet tests for the natural abilities of children, as demonstrated at the summer session this week by Dr. Warner Brown of the philosophy department to his class in "The Process of Thinking."

They were invented by Dr. Frenchmen, A. Binet and T. Simon, and gradually brought to a state of perfection by experiments with hundreds of children.

AS TO FIGURES. "Take the matter of repeating numbers," declared Dr. Brown yesterday. "Binet finds that at 3 years of age a child can repeat a number containing only two figures. The next year he can repeat one containing three digits. By the time he is 7 he can repeat five. From then to the 12 year the development is slower, and when he is 12 he can repeat but seven. Nine is a good record for an adult, while ten is exceptional."

"At 3 years of age he can tell for the first time which is his right hand and his left ear, when asked to point out each in succession. At 5 years most children will get the right hand right, but the left ear request will show the left ear follows they will almost invariably point out the right ear instead."

REPEATING SENTENCES. "In the matter of repeating orally a sentence that one reads him the development can be again be noted. A child of 3 can repeat the sentence 'The cold and snowing,' which contains six syllables. Three years later he can repeat one with sixteen syllables. By the time he is 12 his powers have again jumped ten syllables and he can now repeat twenty-six."

In addition to these tests Dr. Brown noted several others invented by Binet, as follows: "At 3 years of age a child can tell where his hair is. At 4 years the next year the child knows if it is a boy or girl and can pick out the longer of two lines drawn on the blackboard before him, even if the lines are with length. At 5 years he can tell the heavier of two objects. At 6 years, if shown pictures of women's faces, some pretty and some ugly, he can distinguish between the pretty and ugly ones. At 7 years he can distinguish in terms of their use such common words as fork, table, chair, horse, and knows whether, at any given time, it is afternoon or forenoon."

KNOWS ABOUT MONEY. "When 7 years old he can copy a short sentence legibly and tell the missing features in pictures where a nose or ear or eye is omitted. In the same year he knows a nickel, dime, quarter and half when shown them. At 8 he can tell how much two dimes and a nickel make. At 9 he can make change for 10 cents out of a half-dollar. At 10 he can also count backward from twenty while he knows the names of practically all coins."

"At 11 years he can define abstract terms like 'justice,' 'charity' and 'kindness.' The next year he can remember in one minute three rhymes for a common one-syllable word like 'ball.' At 13 he can tell the difference between 'pleasure' and 'happiness,' though this latter test is considered by some of Binet's critics to be too difficult for him."

According to Dr. Brown about one-half of the children examined by Binet passed the tests at the right ages. Of the others 22 per cent were one or two years behind.

PASSENGERS ON CARS GIVE ALARM OF FIRE

PASSENGERS on a passing Telegraph car saw flames at the upper end of an apartment house at Telegraph avenue and Tenth, eighth street owned by John Hampton, retired and notified people in the stores below the apartments. An alarm was sent in and the fire was extinguished before it had gained great headway. The apartment house was damaged by smoke and water and flames, the loss being estimated at about \$2000.

UPBUILD NAVY  
IS COLONEL'S DEMAND

Roosevelt Scores Democratic House for Voting Down Appropriation.

"Might as Well Abandon the Canal as Let Navy Go Backward."

OSTEN RAY N. Y. July 25.—An attack on the Democratic majority in the House of Representatives for refusing to adopt the two battleship program was made today by Colonel Roosevelt. He declared that the building up of the navy must go on if this country is to maintain its position among the nations of the world.

"When the Democrats vote down the battleship," he said, "if they are logical they also will vote to abandon the Panama Canal. It is an outrage from the standpoint of the national honor and interest to go on with the Panama Canal at all unless we both fortify it and keep up an adequate navy."

Roosevelt was told that Wm J. Bryan in his newspaper had criticized him as a reactionary and "Hamiltonian."

"I'm mighty glad," said the colonel, smilingly, "that Mr. Bryan has heard of Hamilton. It reminds me of a man in Boston who asked if he liked to read the bible."

"Like it?" he asked. "I should say I do. There are not ten men in Boston who could have written that book."

"Any talk as to what we intend to do about the Monroe Doctrine?" the Panama Canal was protection of Hawaii or any other matter is not merely offensive but contemptible if we abandon building up the navy and show that we have really neither the power or the will to stand good by deeds," the colonel continued.

NAVY FOR PEACE. "Out in the cow country in the old days it used to be proverbial that the man who was most apt to get into trouble was the man who was always ready to draw but not to shoot. The man who never got into trouble was the man who never blustered, who never was offensive, who never wronged or insulted anyone but who was everywhere known as a man who was content to hold his own if attacked. I believed in the upbuilding of the United States navy as an insurance for peace."

The voice of our battleships around the world was one of the greatest moves for peace that this country has ever made. I hope that our people will always act not only with scrupulous justice, but with the utmost generosity toward all other nations, weak or strong."

"I also hope that this nation will make it evident that such action is due to timidity on our part, but to genuine love of justice. We will become impotent either to secure justice for others or to secure respect for ourselves if we abandon the upbuilding of the navy, for the minute we stop building up the navy, the navy begins to go backward."

REBELS DROP RIFLES FOR SHOVELS

Veterans of Many Insurrections Leave Army to Tamp Railroad Ties.

JUAREZ, Mex., July 26.—Rebel commanders and a generous sprinkling of colonels today find themselves with an immediate command of only 300 men.

If Pascual Orozco, commander-in-chief, does not hasten his long delayed evacuation of the border city he may be unable to leave with more than himself and staff officers. Orozco has an army, but it is scattered over northern Chihuahua and eastern Sonora.

A condition responsible for the situation here is that more men have been sent out of Juarez than originally planned and there is also a steady desertion of soldiers who lay aside the rifle to accept a section of the shovel on an American railroad.

Since the coming of the rebel army to the border deserters have flocked into the United States to be recruited rapidly by employment agencies.

The federal army, which three times has defeated the rebel forces is approaching slowly from the south and the rebel bands are hurrying on to the newly planned campaign in Sonora.

WOMEN SEEK SAFETY. DOLORES CHIHUAHUA BY CANTER to Madero Chihuahua, Mexico, July 26.—Americans here are making an effort to get horses and mules to convey the women and children to Madero. They have not been molested since the rebel army entered the city.

The store of the Dolores Mines Company, an American company, is being taken over by the rebels for the sale of its machinery and plant.

TO GO ON DRYDOCK. The military court in Juarez will go on drydock for three weeks' repairs. She will not be ready for sea until the 1st of October.

## WOOL TARIFF AGREEMENT IS NEAR

Underwood Thinks House and Senate Will Come to Understanding.

Practically the Same Measure Taft Vetoes Will Probably Be Passed.

WASHINGTON, July 27.—The Senate's unexpected passage of the LaFollette wool bill presents a situation on which Congressman Underwood's House majority leader thinks the two branches of Congress can agree.

Underwood today said he thought there would be little difficulty in reaching a compromise. In this case a bill almost identical with the one President Taft vetoed on August 17, 1911, probably will go to the White House within a few weeks.

The former bill was vetoed on the grounds that the tariff board had not reported on its investigation of schedule K. Also the House bill followed the conclusions of the tariff board closely.

LA FOLLETTE BILL. The essential points of the LaFollette bill and the House bill are: "Raw wool—LaFollette bill 10 to 35 per cent; House bill 10 to 35 per cent; Wool waste and tags—LaFollette bill 25 to 30 per cent; House bill 20 per cent; Combed wool or tops—LaFollette bill 40 per cent; House bill 25 per cent; Sams—LaFollette bill 45 per cent; House bill 30 per cent; Clothes, ready made clothing, knit fabrics, women's dress goods, etc., LaFollette bill, 35 per cent; House bill, 35 to 38 per cent; Carpets—LaFollette bill, 35 per cent; House bill 25 to 25 per cent.

These are the more striking comparisons. When the House and the Senate conferees reached a compromise a year ago the raw wool duty was compromised at 23 per cent, wool waste at 25; combed wool at 32 per cent, yarn at 35 per cent; ready made clothing at 49 per cent. It will depend largely on the character of the committee named by the Senate whether a compromise similar to that will be quickly effected.

CONFEREES NAMED. Last year Republican leaders refused to have anything further to do with the bill after it reached the Senate. Senators LaFollette, Republican, and Bailey and Simmons, Democrats, as the conferees to act with Representatives Underwood, Randall and Harrison.

When the Republican Senate leaders determined to hold control of the conference this time by naming two regular Republicans and one Democrat, the perfection of a wool bill in conference might be delayed.

Underwood also sees a chance for the cotton revision bill at this session of Congress.

"I am going to call the ways and means committee to consider the advisability of calling up our cotton bill," he said. "Now that the senate has shown a disposition to enact some legislation giving the people tariff relief, we might as well take up cotton."

When the LaFollette wool bill reached the House today, Majority Leader Underwood demanded that it be sent to conference and the Senate amendment be discarded. A Republican member of New York (Republican) objected. Accorded the naming of the conferees was 10 to 10 with one more.

Republican leaders were puzzled to estimate how far the new alliance between the Democrats and Progressives would go in action on the Democratic free sugar bill tomorrow.

Democratic leaders believe they will be able, with the aid of the Progressives, to pass a compromise sugar tariff bill, probably that by Senator Bristow, taking at least forty or fifty cents per hundred pounds off the present duty of \$1.30 on sugar.

The caucus endorsed in general terms a sugar bill which Senator Williams later presented to the Senate as a substitute to be voted on tomorrow. It would make a reduction of 33 1/2 per cent on refined and unrefined sugar, a reduction of 40 per cent on molasses and choose the duty on sugar and test and the differentials in duty now existing.

HOUSE IS ROBBED. Report was made to the police this morning by Melvin La Selva, 428 Park avenue, that the house had been entered during the night by burglars who forced the front door and stole jewelry valued at \$1250.

## WILSON MAY BE CHAIRMAN AT CEREMONY

Governor Expected to Preside at the Notification of Marshall.

Ridder Will Continue as Treasurer of the National Committee.

SEA GIRT, N. J., July 26.—There was an unconfirmed report here today that Governor Wilson might go to Indianapolis in August to attend the ceremony of Governor Thomas R. Marshall's notification of his nomination for the Vice-Presidency. Judge Alton R. Parker of New York, who was temporary chairman of the Baltimore convention, will act as chairman of the committee to notify Governor Marshall.

Herman Ridder of New York, it was learned today, will continue as treasurer of the Democratic national committee during the presidential campaign. Governor Wilson will return to Sea Girt tomorrow to receive a delegation of 100 members of the Brooklyn Democratic Club and will again retire into seclusion to remain until Monday morning.

MARSHALL BUSY ON SPEECH. INDIANAPOLIS, July 26.—Governor Thomas R. Marshall, Democratic nominee for Vice-President, who returned to his office yesterday after a week on the lake in northern Indiana, began work today on his notification speech.

No time has been set for notifying the governor officially of his nomination.

## CITIZENS CAPTURE PLUMBING THIEF

Robber Is Caught in Act of Cutting Lead Pipe From New House.

Discovered by citizens last evening in the act of cutting away several yards of lead pipe from the chimney of a new house at 416 East Seventeenth street, Thomas F. Miles was captured after a chase of several blocks. The man was taken to the police station and will probably be charged with burglary.

The citizens who effected the capture were C. Potts, W. Potts and A. F. Wallace. The three men had their attention called to the peculiar behavior of a man who was seen lurking about a new house at 416 East Seventeenth street. On investigating they discovered that the man was cutting away the plumbing.

Wallace and Potts decided to surround the place, but Miles realized he had been observed and made a break for liberty. The citizens gave chase and captured the fugitive.

The prisoner gave his name as T. F. Miles. The police are investigating to see whether he has a previous record.

## CORONER'S JURY TAKEN TO SCENE OF CRIME

SAN FRANCISCO, July 26.—Coroner T. W. Leland decided this morning that the death of Melvin La Selva, who was shot by Grace Shields in the Townsend Hotel on Tuesday, demanded special investigation. He therefore took the jury in automobiles to the City and County Hospital, where Miss Shields was questioned regarding the details of the alleged assault upon her by La Selva. The jurors were also taken to the scene of the crime.

Report was made to the police this morning by Melvin La Selva, 428 Park avenue, that the house had been entered during the night by burglars who forced the front door and stole jewelry valued at \$1250.

## Oaks Show Great Improvement With War Club and Happy's Gang Is Badly Beaten

### TRULY, BILL REIDY IS FOLLOWED BY OLD MAN JINX

Loses Another Tough Game to Henry Berry's Fast Coming Angels.

LOS ANGELES, July 26.—Twelve hits were made in yesterday's game between San Francisco and Los Angeles, and they were divided equally. The Angels, however, managed to secure two runs out of the inning, while the Seals only negotiated one with the greatest effort.

Fanning pitched and the best thing he did was to fan the mighty Helmsmiller a couple of times. The fellow who can do that twice in one game is some pitcher, and would win ball games with support of the right sort.

Los Angeles started the fourth inning at bat with a single by Daley, and in a fit of generosity Helmsmiller permitted Helmsmiller to walk. Moore sacrificed to Howard unassisted, and the other runners advanced in leisurely fashion. Metzger singled to infield and Daley scored with Helmsmiller waddled to third. Lohr fanned and Metzger stole second. Brooks walked, hitting the bases, but Levenson flew to Feltz and retired the side.

The Seals came up bravely and Gedehn flied to Daley, the latter making a fine run and sensational catch. Corhan singled to center. Wuffli singled to center, putting Corhan on second. Corhan and Wuffli attempted a double steal and the former was caught off the base, but Wuffli got to left field and Wuffli negotiated the only run of the day for the Seals.

Angel Howard singled to center when the Seals came up and stole second in shameless manner. It came so easy, in fact, that the way to third when Schmidt made a wild throw to second. Berger fanned and Daley flew to Hartley, Howard scoring after the catch. The Seals scored.

THE FINISH OF THIRD AND FINAL HEAT OF FIRST RACE AT PLEASANTON WEDNESDAY. GEORGE HAMMET WAS THE WINNER, WITH ALBALOMA SECOND AND CALIFORNIA B THIRD.

### TIGERS ARE TAMED WITH HARRY ABLES IN THE BOX

It was bump the bumps for Happpicus yesterday, and when the Oaks had finished with the Tigers and their big leader were a much-subdued bunch. Twelve times did B. Sharpe and his warriors bulld around the bases and eighteen times did they slam the ball to those places "where they ain't."

Five times did Happy's gang break into the hit column and twice did they put a dent into the plate. Thus was the score Oakland 12, Vernon 2.

Being that the contest was on the hum town lot, much joy did the annihilation of the Bengals bring to the fans.

Then there was more joy in the fact that Mr. H. Ables was able to pitch classy ball for nine rounds without there being any occasion of oiling up the derrick.

St. Stewart was the gentleman who received the terrible lacing from the Oaks. With the beginning of the season, it was evident that Happy was in for a bawling. The first three Hooligans to bat did nothing. Carlisle hit weakly to Sharpe, Kane popped out to Cook, and Hosp popped out to Helling.

**OAKS BEGIN HITTING.**  
 Chocolate Edouard Patterson started disaster for Stewart by lacing one to right but for a high wind, Leard hit to Stewart and he nailed Pat at third. Zacher hit one on a line that went to left field with the speed of a Wright airplane. No body figured Carlisle getting the ball, but he did and he doubled Leard at first. Of course, that dashed our hopes for the inning, but it was a sure sign that that Oakland was going to hit the ball and they did.

Burring a single by Brashner and a double by Hoffman, the second was devoid of bingles. The third, though, was one grand luring (for the hum town folks) and joy ran riot around the ball park for several minutes.

Rohrer started the scene with a pop-up to Hosp. Ables pasted one to left that took up the war club and nearly knocked Burrell off his pins. Said sweat was good for one base, but it put two runners over the pan.

E. Zacher tried then to steal second, but Agnew winged him out. The fun wasn't over yet, though, by any means, for Hoffman and Helling were passed, giving Doc Cook a chance.

**WHAT DOC COOK DID.**  
 Doc fouled off one and then misled one, so it was two strikes when Stewart dandy strike, at least Stewart thought so, and so did Finney, for he was just preparing to say "Striker out" when Doc swung.

### TOMMY McFARLAND IS CERTAIN HE WILL BEAT HOGAN

Next on the pugilistic card will be the fifteen-round boxing match between "One-Round" Fred Hogan and Tommy McFarland and two ten-round contests between one five-round contest between lesser lights of the roped arena under the auspices of the Tuxedo Club at Dreamland Rink at San Francisco on the night of July 31.

This card is a strange mixture of fighting material. Not a champion is there on the list, but the card has the looks of being a lot better than some championship bouts we have seen pulled off around the bay.

Tommy McFarland is a boy who likes the game and with a great big supply of gameness and willingness he is a fighter who takes with the fans. He has many wins, the good, the bad and the indifferent, and always has the verdict been that Tommy fought the best he knew.

Maybe he hasn't a record that finds a place in the dope book, but he has met tough ones in his time. "Red" Watson, Louis Root and Eddie Dennis had enough of his game, while he made Champion Al Volgaist sent around for 10 rounds.

Al tells us that Tommy begged him not to knock him down. Al might have been right, for Tommy is a fighter, a rule, especially of the Volgaist type, hate to give the corn to a successful opponent.

McFarland is at Millet's working his head off getting into shape and each day he holds a merry session with aspirants for the title.

He is a mighty good fighter and is already mapping out a bright career for himself.

### HOGAN IS WORKING HARD

The "One-Rounder" is housed at Billy Shannon's training camp over at the West End at San Rafael and Mike Host Billy speaks volumes of the way "One-Round" gets down to work.

The manager of the "One-Rounder" is not underestimating the boy in the lead and has Hogan go through every angle of the camp life with the same gusto he did when preparing for that lacing from Munner.

Another 10-round bout is expected, with Manuel Viera and Marty Kane as the principals. These two boys fought a terrific four-round bout a few weeks ago and while Kane was proclaimed the winner all the fans clamored for another fight between the two.

For the boys to fill out and make a card of 40 rounds of fighting. Five boys of entering the San Francisco and while Kane was proclaimed the winner all the fans clamored for another fight between the two.

### EXCELLENT RACING FILLS CARD AT PLEASANTON MEET

PLEASANTON, July 26.—Excellent sport filled the second day's meet of the Pacific Grand Circuit here yesterday. Many of the races were interesting and well contested, and a fair crowd was on hand when the word was given to start the first event on the card.

The card was made up of two pacing events and a trotting race. The event for Contra Costa county horses, which was left unfinished, also was completed, and there was plenty of sport. A word of praise may be extended to the officials of the meet for the businesslike manner in which the meet is being conducted and the work of Starter J. L. McCarthy was pleasing.

The finishing of the race in the various events was a place of skillful work as he dispatched them with haste as well as with fair judgment.

The field was large, five or more entries starting in each event. The race of the day resulted in the 2:11 pace, in which six entries when into the hands of Starter McCarthy. It took him less than a minute to get the horses in the line, and the San Francisco pacer Cleopatra, owned by the local harness enthusiasts, I. L. Burden, and Mrs. Burke's entry, Lovelock.

Three times they came down to the wire with less than a head separating them at the finish and in one instance the finish was so close that many in the stand differed with the judges in regard to the winner.

In the opening heat Lovelock stepped out in front and paced the mile in 2:11. Cleopatra finished fast, but was beaten out by a head. In the next heat Lovelock went to the front again and paced the mile in 2:11. Cleopatra moved up, but failed to catch the flying leader. It was an upset for the finish. Lovelock bettered his time in this heat by pacing the mile in 2:10.

In efforts in these heats apparently told on the Burke entry, as Driver Cooper worked hard on Lovelock in the third heat but Cleopatra had 160 mph at the finish. It was a two-horse race with Cleopatra the only other contender.

**CLEOPATRA IS FAST.**  
 Cleopatra is a Cheyenne mare by Zolock and Mrs. Burke's entry. She was one of the most consistent performers on the circuit last season, having won five straight races. This season she has been working hard and has given a great deal of work in preparation for yesterday's race. She proved her gameness for it was on this quality that she won from Lovelock.

There were nine starters in the first trot and the purse was \$1000. The first heat was won by William T. Season's big trotter San Felipe, by Zombro, driven by the local harness enthusiast, J. L. Burden. San Felipe had been out on Wednesday and captured the 2:15 trot after four heats. These races did not seem to dull the speed of the overgrown trotter, as he seemed to improve yesterday with each race.

In the opening heat Rex went out in front and beat San Felipe home in a beautiful race. The big trotter was the first done. He gave a much better race than he had in the past, where he had a great burst of speed. San Felipe closed the gap, only to be beaten by a head. The big trotter, as he went out and captured the next heat with ease, trotting the mile in 2:15, clipping more than two seconds off the time made in the opening heat.

### SAN FELIPE A WINNER

The next two heats were won with ease by the big trotter. In the third heat, San Felipe was again the winner, capturing the 2:15 trot after four heats.

Play Fairly Good Ball at Portland, But Home Run Puts Kibosh on Team.

PORTLAND, July 26.—Hank Butcher was wadded from Cleveland on the wings of a slugger's reputation. Therefore Butcher's average of something like .400 has been a matter of daily satisfaction with him and with several thousand fans. But the late arrival and Butcher's failure to produce McClellan for his patience by whacking the ball over the left field fence in the first inning of yesterday's game, driving in two runs ahead of him and hitting up the game.

Thereafter Sacramento baffled in the waves of an uphill fight and Portland won the third straight game of the series.

Sacramento put forth valiant efforts to overcome the lead, but three runs in the seventh inning, after Portland had added another tally in the fourth, was the best the visitors could muster. Higginbotham was in good luck, and in the seventh inning allowed only two scattered hits. Score:

### AROUND THE BASES

Oakland came back yesterday afternoon on their own back yard and made it most interesting for the Happpicus. First they hammered Harry Stewart to a farthest well and when they had driven him from the hill the Oaks tore after him. They laced him and laced his offerings to a good turn. At that, the lad seems to have something and might be a help to the team.

Evidently Oakland has changed its mind about the return to the Happpicus. For since his return from the country he has been playing nice ball and hitting well. Even if his pants aren't going into the territory, the sacking of waivers on Hoffman was a silly idea at that for the man has been a week or two in the line and is now a week or two in the line and is now a week or two in the line.

Another busher was added to the roster of the Coast League yesterday when Oakland signed outfielder Abbott, late of the Tacoma team. He has been a free agent so he didn't cost Oakland anything, but what on earth can they do with him when they have such a classy bunch of ball players. Oakland gave them a merry time in the outfield.

Every mother's son of them took a swing at the ball and every one of them gathered one or more nuffles but Ables, and his fellows got the ball that made the first run of the twelve.

Cook got a homer in the third inning with two on the bases. It came most unexpected for the batter had two strikes when he swung. Zacher too got a bangle in this round with two strikes called on him.

Johnny Kane was the only Hooligan that was able to find Ables to any extent. Twice he poked out doubles but it was his fourth out that he got them more than anything else.

After the Oaks had made seven runs and nine hits off of Stewart Happpicus concluded to switch his battery and Roberg and Sullivan replaced Stewart and Ables. Oakland gave them a merry time of it too.

Oakland gathered one or more bingles every round, getting one in the first, second and sixth, four in the third and seventh and three in the fourth and eighth.

Happy Hogan went tearing after Ables in the opening round and kept up the good work until the very last Hooligan had been retired. This time though it availed the Happpicus nothing, but you must hand it to the leader for it was a try.

Patterson was swinging the war club in excellent manner yesterday and his three hits helped the Oaks along nicely. Hoffman got three and so did Cook.

One boot was most costly in the southland yesterday to the Seals. Schmidt made a wild heave to one of the Seals and a runner went to third and then scored on a single. This run won the game.

**LEGAL NOTICES**

**Important Notice to  
Voters of Registration**

Office of John P. Cook, County  
Clerk, Oakland, Alameda  
County, California.

Notice is hereby given that in accordance with the provisions of Article IV of the Political Code of the State of California, all voters of Alameda County are hereby notified that they will be able to vote for re-registration in order to be eligible to vote at the election to be held on September 3, 1912, and for the election of members of the Legislature to be held on the 5th day of November, 1912.

Owing to the fact that there is no provision of law granting assistance to the County Clerk in the registration of voters, it is important that the voters appear for registration at once, in order to expedite their work.

Such re-registration began on the first day of January and will be in progress until August 31, 1912, for the purpose of enabling voters to qualify for the primary election to be held on the 1st day of October, 1912, and continue until the 1st day of September, 1913, for the purpose of enabling voters to be eligible to vote at the election to be held November 5th, 1912.

The attention of voters is especially directed to the fact that in order to be eligible to vote at the election to be held on September 3, 1912, voters must have registered this year in order to be eligible to vote at the election to be held on November 5th, 1912.

Section 1087. No person's name may be entered by the Clerk unless:  
1 Upon the filing and filing of a certified copy of the judgment of the Superior Court directing such entry be made in favor of a naturalized citizen, upon the production by the certificate of naturalization which certificate must be issued ninety days prior to the election.

Upon his affidavit that it is lost or out of the possession, which affidavit must state the place he has resided in since the date of his naturalization, together with the United States that he has resided in for the last five years, and that he would be able to produce a certificate of such registration, issued by the State or Territory, or by law to issue such certificate, which shall be prima facie evidence of his naturalization. In the event that such naturalization is not proved to the satisfaction that he was naturalized in the country

city and county in which he seeks to register, or in the event that he was previously registered within the preceding eight years within the county or city and county in which he seeks to register, and

his certificate of naturalization has not been revoked, he shall not be required to produce evidence of his citizenship, and shall not be required to make such affidavit of lost certificate in lieu thereof, provided, however, that if any county or city and county where that person was domiciled at the time he was destroyed by fire or conflagration, or other public calamity, the above statement of the person as to previous registration with the county or city and county shall be in the nature of a declaration, and shall be in effect in the county or city and county apply only for such number of years past as there shall exist a record of previous registration, and shall not exceed in any event said eight years.

§. If born in a foreign country, upon his affidavit that he became a citizen of the United States, he shall not be required to produce evidence of his citizenship, and shall not be required to make such affidavit of lost certificate in lieu thereof, provided, however, that if any county or city and county where that person was domiciled at the time he was destroyed by fire or conflagration, or other public calamity, the above statement of the person as to previous registration with the county or city and county shall be in the nature of a declaration, and shall be in effect in the county or city and county apply only for such number of years past as there shall exist a record of previous registration, and shall not exceed in any event said eight years.

tion of his father while he was residing in the United States, and under the age of twenty-one years, and that he is not and would be an elector of the county at the next ensuing election.

If the other cases upon the affidavit of the party are such as will be an election of the county at the next succeeding election. Such affidavit must be made before the county clerk or officer charged with the registration of voters, or their deputy. If an elector is absent from the county in before and after he may appear in person before any judge at any time

## ROOSEVELT LAYS PLANS FOR THEFT

The Man Who Bellows "Stop Thief" Is Talking to Himself.

OYSTER BAY, N. Y., July 26.—Six staunch Republican states have adopted a plan, Colonel Roosevelt said last night, for the capture of the National Progressive party. The states he named are Kansas, Minnesota, South Dakota, Idaho, California and Washington. In each of these states, according to Roosevelt, who has talked with the ex-President or his aids, the Republican organization is in control of the support of the new party to an extent sufficient to enable them to transfer the organization virtually intact to Colonel Roosevelt's support. In such case it is the intention to retain the name Republican and place candidates for Congress and state officers on the regular Republican ticket.

In states in which the law requires that the names of Tatt and Sherman be placed on the ballot as the Republican nominees, the Roosevelt candidates for electors will go in a separate column. Where the law does not exact this the Roosevelt candidates probably will be placed under the regular Republican emblem on the theory that Colonel Roosevelt is the legitimate nominee of the party.

## ATHENS PARLOR PLANS FOR THEATER PARTY

A theater party will be given by Athens parlor, Native Sons of the Golden West, of Oakland, at the Orpheum, Monday evening, August 12, to raise funds to acquire a new theater building for the city. Several hundred tickets are on sale at the headquarters in Pythian castle, Twelfth street near Alice, or they can be procured on application at the sub-committees of the various local parlors.

All tickets purchased from any of the committees will be exchanged for regular seating accommodations at the Orpheum box office August 5 to 12, inclusive.

In addition to the regular program several stunts are to be put on by the Native Sons thespians.

E. F. Garrison, C. W. Corrigan, C. W. Fairchild, A. W. Spinkler, Fred Kramlich, E. T. Bivens, J. S. Engle, E. S. Babson, Leon Rewig, J. H. Skaggs, Charles F. Naylor, Lincoln Jackson and George Reier compose the arrangements committee.

## OAKLAND'S BOYS AND GIRLS

### YOUTHS TO CLIMB TREE-COVERED MT. DIABLO

Under the leadership of L. Ray Ogden a company of boys of the Young Men's Christian Association will climb Mount Diablo and will stay at the summit overnight. They will be away four days. They will carry provisions but no tents as they do not intend to camp.

Early Tuesday morning the boys will assemble at the Association building at Twenty-first street and Telegraph avenue and from that point they will ride to Claremont Hotel and hike the remainder of the distance.

### WORK ON COURTS FOR BELLA VISTA PARK

Tennis courts will soon be ready for use in Bella Vista Park playground, where a company of men are at work. The Oakland Playground Commissioners plan to install an outdoor gymnasium there with in the near future. The equipment will be ordered from the East.

Bella Vista Park playground will be under the supervision of playground director and the rules will conform with those of the local playgrounds.

### IMPORTANCE OF THIS CITY TOLD BY S. P.

The Social Chamber of Commerce has received a copy of a bulletin being issued by the Southern Pacific company to all agents from Los Angeles to El Paso. This bulletin is issued with the idea of stimulating summer passenger traffic and in it are set forth the advantages and many attractions Oakland has to offer to the summer vacationists. Alameda and Berkeley also come in for their share of publicity. Agents are advised that, in addition to being an attractive residence city, Oakland is of considerable importance commercially and is rapidly becoming a great city. The bulletin is being issued by the passenger department.

### WINS FAME AS ENTERTAINER

In juvenile circles Evelyn Reeves is playing an important part as an entertainer. She is a clever dancer and conversationalist. Often she has contributed to entertainments which have displayed her talent. Evelyn is a very attractive child who has been admired by her playmates, with whom she is very popular.

### LAW LEAGUE TO MEET AT 1915 WORLD'S FAIR

COLORADO SPRINGS, July 26.—Frederick P. Voss of Chicago was elected president at the final session last night of the Commercial Law League of America convention. Naragansett Pier will probably be the next place of meeting. It was voted to hold the 1915 meeting at the Panama-Pacific Exposition, San Francisco.

### GAME OF 'BAT' BALL FINDS FAVOR IN OAKLAND

Half a dozen girls of Bushrod Park playground surprised their friends recently by romping about the ground barefooted. The scene represented a holiday on the beach. The custom of playing barefooted is in vogue in many of the eastern playgrounds. Involuntarily the local boys and girls are practicing that.

According to the calendar of events many interesting games for the children of the playground will be introduced during the fall season. The German "Bat" ball game, which has created excitement in Mosswood Park playground, is the most fascinating game for the girls, who have become enthusiastic over that sport. The children are meeting with success in that game by Miss Winifred Von Hagen who is in charge of the girls' division.

Baseball is the leading pastime for the boys. The teams of Mosswood Park playground which have affiliated with the playground league are as follows: Midgots, B. Langley, Lloyd Robinson, Lloyd Thompson, Sidney Cantwell, Jack Thompson, Lloyd Clark, Jack Ames, Loran Hawkins, Louis Griffin and Frank Reed.

Junior team—R. Whitton, Adrian Herbold, Curley Freeman, Ray Constantine, Claude Mitchell, William Kerr, Richard Zohner, James Moore, A. Larner, James Michler, J. Friedman, Leslie Irving, Lester Rose, William Courtney, Sam Gilchard, Burdett Chinn and G. Fitzgerald.

### EXCURSION STEAMER GROUNDS, CLEVELAND, OHIO, JULY 26

The steamer Eastland with several hundred passengers aboard struck on the east breakwater at the foot of East Ninth street shortly before midnight last night while returning from a "moonlight ride." Wireless calls for assistance brought four tugs and the life saving crew, but the water was too rough. The Eastland was later pulled off and towed to her dock.

### ELECTRICAL CONTRACTORS ELECT NEW OFFICERS

SAN JOSE, July 26.—At an adjourned meeting held in Pasadena the convention of the California Association of Electrical Contractors elected the following officers for the coming year: John C. Rindler of Los Angeles, re-elected president; C. W. Scholer of Sacramento, first vice president; J. S. Reynolds of San Francisco, re-elected secretary-treasurer; R. L. Booth of Los Angeles, re-elected sergeant-at-arms.

## BOURBONS LASHED BY EDITOR HEARST

Failure to Provide Larger Navy Basis for Attack on Democratic Party.

PARIS, July 26.—William Randolph Hearst, the American newspaper man, in a signed statement to the correspondent of the Sun on American politics says:

"The failure of the Democrats in Congress, in defiance of their party platform, to provide a Navy adequate to the Nation's needs utterly discredits Democratic promises and Democratic patriotism. No reliance can henceforth be placed upon a party which has no regard either for its own honor or the Nation's dignity and safety. Patriotic citizens cannot be expected to vote for Democratic candidates who repudiate their solemn pledges and default in personal and patriotic obligations.

"It is not wise to trust the powers of government to a party of narrow sectionalism and small Americanism, which has no conception as to the Nation's dangers or the Nation's duty, or of the Nation's destiny.

"It is actually not safe to repose the fate of the greatest nation in the world to the care of a party which proposes to contract our national possessions and which refuses either to protect our interests abroad or safeguard our citizens at home.

"The Democracy's repudiation of its platform pledges is not merely equal dishonesty, but its default in its patriotic duty to the nation is nothing less than treason."

## TO OPEN FIGHT ON REST DAY BILL

Hotel Men Declare Proposed Law Is Full of Many Dangers.

LOS ANGELES, July 26.—Members of the Southern California Hotelmen's Association are planning a state organization for a combined fight against a proposed bill to be introduced at the next session of the legislature, which applies to male employees practically the same restrictions as the present eight-hour law applies to women. The bill will be introduced as the "rest day" bill.

For the last two weeks initiative petitions have been circulated throughout the state and it was only recently that Los Angeles hotelmen learned that 20,000 signatures of the 35,000 needed have already been obtained.

According to C. C. Loomis, president of the Southern California Hotelmen's Association, the bill, as framed, is more drastic and far-reaching than the more discussed eight-hour law. Many of the hotelmen here declare that the passing of the bill would almost put the hotels in this section of the country out of business.

**EX-GOVERNOR DIES.**  
MELBOURNE, Australia, July 26.—Ex-Governor Richards of Wyoming, who was a member of a landowners' party, died suddenly today from heart failure.

**WHAT MAKES A WOMAN?**  
One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. It's a good foundation. Put into it health and strength and she may be a knockout. But that's not what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for driving away nervousness, backache and tired, listless, worn-out feeling. "Electric Bitters have done me a world of good," writes Eliza Ford, Lyova, Okla. "and I thank you with all my heart for making such a good medicine." Only 50c Guaranteed by Good Food.
